

High School Students in EMT Course

Selected High School students who meet certain requirements may be allowed to enter an EMT course in any SC approved training institution. Those requirements include:

- Class status as a “second semester” Senior
- Letter from the principal of the High School (on Letterhead) giving support for the student to enter the course. (A copy of the letter must be attached to the EMT course “*Statement of Understanding*” **Enclosure 4**.)
- Must satisfy pre-screening requirements in reading comprehension and math using a standardized test from either an agency that does pre-screening, or by the authorized SC EMT training institution using the prescreening examination of their choice (i.e. HOBET, ACET, COMPASS, etc) with a previously established passing score.
- Must be physically fit and able to perform all the tasks required of an EMT

The EMT training institution may impose any additional entrance requirements or pre-requisites as deemed necessary by the institution. For all ADA (Americans with Disabilities) concerns, please refer the National Registry Website: www.nremt.org and from the menu on the left, click on “*General Policies.*”

Important:

Once the course is completed – these students will not be permitted to attempt the National Registry examination until they have reached the age of 18 and have submitted, to DHEC, a copy of their High School Diploma.
