Last Revision: 02-08-2023

President

The adoption of an athletic program is of local option and the total cost of such activities shall be from funds budgeted specifically for student athletic activities and accounted for separately. Financial Aid funds used for direct or indirect education-related costs, including “grants-in-aid,” shall not be given to students for athletic participation.

Institutional athletic programs and budgets are subject to periodic review by the Executive Director and the State Board.

Should the College establish intramural or inter-institutional athletics, appropriate operational procedures will be developed to ensure active participation of students and faculty in the planning for the related programs and activities. These operational procedures must be approved by the Area Commission prior to implementation.
