INDEPENDENT AUDITOR'S REPORT

Horry – Georgetown Commission for Technical Education
Horry – Georgetown Technical College
Conway, South Carolina

Opinions

We have audited the accompanying financial statements of Horry – Georgetown Technical College, a component unit of the State of South Carolina, as of and for the years ended June 30, 2022 and June 30, 2021 and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, based on our report and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Horry – Georgetown Technical College, as of June 30, 2022 and June 30, 2021, and the respective changes in the financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Horry – Georgetown Technical College Educational Foundation, Inc. which represents 100 percent of the discretely presented component unit presented in the financial statements. Those statements were audited by other auditors whose report has been furnished to us, and our opinion on the basic financial statements insofar as it relates to the amounts included for Horry – Georgetown Technical College Educational Foundation, Inc. as a discretely presented component unit, is based solely on the report of other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Horry – Georgetown Technical College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Horry – Georgetown Technical College’s ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Horry – Georgetown Technical College’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Horry – Georgetown Technical College’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2022 the College adopted new accounting guidance, GASB 87, *Leases*, and GASB No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. Our opinions are not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 5 through 11 and supplementary pension information and supplementary OPEB information on pages 55 through 62 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Horry – Georgetown Technical College's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis and is also not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our report and the report of other auditors, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 3, 2022, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Report on State Lottery Assistance Program

We have also issued our report dated October 3, 2022 on our consideration of Horry – Georgetown Technical College's administration of the State Lottery Assistance Program and on our tests of its compliance with certain provisions of state law and policy 3-2-307 and procedure 3-2-307.1 of the State Board for Technical and Comprehensive Education.

Report on State Supported Scholarship and Grants

We have also issued our report dated October 3, 2022 on our consideration of Horry – Georgetown Technical College's administration of the state supported scholarships and grants and on our tests of its compliance with certain provisions of the state legislation and the regulations of the South Carolina Commission on Higher Education.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of Horry-Georgetown Technical College offer users and other readers of the College's financial statements this narrative overview and analysis of its financial activities for the fiscal years ended June 30, 2022 and June 30, 2021. This discussion and analysis should be read in conjunction with the consolidated financial statements and the footnotes thereto, which follow this section.

The financial statement presentation format provides a comprehensive, entity-wide perspective of the College's assets, liabilities, net assets, revenues, expenses, changes in net assets, and cash flows. The financial statements are designed to emulate corporate presentation models whereby all College activities are consolidated into one total. The Statement of Net Position combines and consolidates current financial resources (short-term spendable resources) with capital assets and discloses any debt obligations.

The Statement of Revenues, Expenses, and Changes in Net Position focuses on both the gross costs and the net costs of College activities which are supported substantially by property taxes, state allocation, state and federal grants and contracts, student tuition and fees and auxiliary enterprise revenues. This approach is intended to summarize and simplify an analysis of costs for various College services to students and the public.

As additional information, financial statements for the Horry-Georgetown Technical College Foundation (the Foundation) are also included. All financial activities and balances of the Foundation are disclosed as a discretely presented component unit.

Financial Highlights

- In spite of the lingering impacts from the COVID-19 pandemic, the College experienced a strong year financially as evidenced by a substantial increase in net assets from \$85,686,774 to \$88,574,142, or by \$2,887,368 or approximately 3.37%.
- The College is in the midst of a multi-year capital improvement initiative that includes refurbishing and expanding existing buildings and improving its information technology infrastructure. These capital improvements are financed by College Funds, State and Local funding, private donations, and the local Educational Capital Improvement Sales and Use (Penny) Tax.
- In spite of the economic uncertainties associated with the COVID-19 pandemic and ongoing enrollment pressure as part of national trends, the College was able to significantly increase its net assets during the year, thus providing overwhelming evidence of its financial strength and overall fiscal health.
- The College continued to administer and otherwise use its allocation of the Federal Higher Education Emergency Relief Funds (HEERF) during the year as described herein.

Overview of the Financial Statements

The College is engaged only in Business-Type Activities (BTA) that is financed in part by fees charged to students for educational services. Accordingly, its activities are reported using the three financial statements required for proprietary funds: Statement of Net Position; Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

The Statement of Net Position presents the financial position of the College at the end of the current fiscal year and classifies assets and liabilities into current and non-current. The difference between total assets and total liabilities is net position, which is displayed in three broad categories: Investment in Capital Assets (net of related debt); Restricted Assets; and Unrestricted Assets. Net Position is one indicator of the current financial condition of the College, while the change in Net Position is an indicator of whether the overall financial condition has improved or worsened during the year.

The Statement of Revenues, Expenses, and Changes in Net Position is a statement of net income with an entity-wide perspective. Revenues and expenses are categorized by operating and non-operating, and expenses are reported by object type.

The Statement of Cash Flows will aid readers in identifying the sources and uses of cash by the major categories of operating, capital and related financing, non-capital financing, and investing activities. This statement also emphasizes the College's dependence on state and county appropriations by separating them from operating cash flows.

Financial Analysis

In addition to the financial information, charts and graphs are provided to enhance an understanding of the institutions financial condition and related changes from the prior fiscal year.

The previous schedule is prepared from the College's Statement of Net Position, which is presented using an accrual basis of accounting, whereby assets are capitalized and depreciated. Total assets and deferred outflows increased by \$8,721,190 or approximately 4.45% over the prior year primarily due to changes in pension and benefit related outflows. The increase in total assets was also due to an increase in cash and accounts receivable associated with the Federal Higher Education Emergency Relief (HEERF) funding due the College.

The increase in total assets was offset by an increase in total liabilities and deferred inflows of \$5,833,822 or 5.42%. The increase in total liabilities was largely due to increased pension and benefit related obligations.

The increase in net position of \$2,887,368 or 3.37% over the year provides overwhelming evidence of the College's overall financial strength and economic well-being.

As shown above, the College experienced a substantial increase in its net position (or net assets) during fiscal year 2022 in the amount of \$2,887,368 or 3.37%. The change in net assets was largely attributed to increased non-operating revenues from the Federal Higher Education Emergency Relief Funding (HEERF) associated with the pandemic.

Operating revenues declined slightly due to the methods in which tuition revenue is reported, however that decline was offset by an increase in tuition scholarship revenues. Operating expenses increased during the year primarily due to additional costs associated with the ongoing pandemic. These costs included, but were not limited to, increased instructional, information technology, and employee benefit costs.

The following is a multi-year graphical trend of operating expenses by function.

Operating Expenses by Function For the Years Ended June 30,

Total Operating Expenses	\$ 83,865,007	\$ 73,135,057	\$ 10,729,950	14.67%

The following is a multi-year graphical trend of operating expense by function.

Operating expenses increased during fiscal year 2022 by \$10,729,950 or 14.67%. This change was driven by several factors including an increase in institutional support which includes information technology expenses to support virtual and remote learning and increased scholarships (student aid) and HEERF funded tuition. Instructional costs increases were associated with the added costs of providing services in an on-line/hybrid due to the pandemic. The change in expenses was also due to increased depreciation associated with a new academic building at the College's Georgetown Campus and significant land improvements at the Grand Strand Campus.

Net position (net assets) may serve over time as a useful indicator of an entity's financial position. In the case of the College, assets and deferred outflows exceeded liabilities and deferred inflows by \$88,574,142, an increase of \$2,887,368 or 3.37% over the prior year, thus providing overwhelming evidence of the financial strength and economic viability of the institution. The increase in net assets was primarily attributed to support from HEERF, collections from the local Educational Capital Improvement Sales and Use (Penny) Tax.

As of June 30, 2022, less than 1% or \$256,404 of the College's net position is restricted for revolving loan funds and by other grantor-imposed restrictions.

Net Capital Assets	<u>\$ 86,136,323</u>	<u>\$ 87,341,389</u>	<u>\$ (1,205,066)</u>	<u>(1.38%)</u>

As of June 30, 2022, the College had \$86,136,323 in capital assets, which represented a \$1,205,066 or 1.38% decrease over the prior fiscal year. The decrease in capital assets was largely precipitated by an increase in depreciation expense.

The College continued progress on its facilities master plan during the year, completing existing and starting new capital projects. These capital projects are intended to improve and expand academic and instructional space; enhance administrative and support buildings; upgrade the institution's roads, sidewalks and parking facilities; and modernize the existing information technology infrastructure.

Capital assets include \$611,885 in intangible and capital leases with associated debt in the amount of \$324,186 as of June 30, 2022.

Cash - End of Year	<u><u>\$ 29,704,717</u></u>	<u><u>\$ 23,006,320</u></u>

The College's cash position increased by approximately \$6,698,397 or 29.12% during the year. The increase in cash was primarily attributed to an increase in accounts receivable associated with HEERF funds due the College.

Capital Asset and Debt Administration

The College was able to substantially increase its net position during the year through relatively stable enrollment, ongoing cost reduction initiatives, and receipt of the local Education Capital Improvement Sales and Use (Penny) Tax. The College has no indebtedness.

Economic Factors

Over the past decade, the College has been forced to rely more heavily on tuition (enrollment) revenue to support its mission. Going forward, the College expects some flattening of enrollment growth due to national enrollment trends especially across two-year colleges, economic impacts associated with the COVID-19 pandemic, availability of federal and state financial aid, and competition from private and four-year institutions. The future impact of enrollment increases or decreases however, cannot be measured with any precision.

In spite of these economic and market-related challenges, the College continues to provide overwhelming evidence of its fiscal strength and economic health as demonstrated by its growth in net assets, financial liquidity, and absence of debt. The College's financial health is further supported by relatively stable enrollment, ongoing cost reductions, and receipt of the local Penny Tax.

NOTES TO FINANCIAL STATEMENTS

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: Horry - Georgetown Technical College (the “College”), a member institution of the South Carolina Technical College System, provides a range of educational programs to meet the needs of the adult population of Horry and Georgetown counties. Included in this range of programs are technical and occupational associate degree, diploma and certificate curricula that are consistent with the needs of employers in the College’s service area. As an integral part of this mission, the College provides a program of continuing education designed to satisfy the occupational demands of employers through retraining and upgrading skills of individual employees. The College also provides a variety of developmental education programs, support services and offerings to assist students in meeting their personal and professional educational objectives.

Reporting Entity: The financial reporting entity, as defined by the Governmental Accounting Standards Board (“GASB”) consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be incomplete. Accordingly, the financial statements include the accounts of Horry - Georgetown Technical College, as the primary government, and the accounts of Horry - Georgetown Technical College Foundation, Inc. (the “Foundation”), its component unit. The College is considered a discretely presented component unit of the State of South Carolina as required by GASB Statement No. 61. However, based on the nature and significance of the Foundations’ relationship with the State of South Carolina, the Foundation is not a component unit of the State of South Carolina.

The Foundation is a legally separate, tax-exempt component unit of the College. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The 32 member board of the Foundation is self-perpetuating and consists of friends of the College. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College. The Foundation is reported in separate financial statements because of the difference in its reporting model, as further described below.

The Foundation has adopted Accounting Standards Update (ASU) No. 2016-14, Not-for-Profit Entities (Topic 958) – *Presentation of Financial Statements of Not-for-Profit Entities*. This adoption resulted in reducing the net asset classification from three net asset classes to two net asset classes, providing qualitative disclosures about methods used to allocate costs among program and support functions, and adding additional qualitative disclosures regarding liquidity and cash management.

Financial Statements of the Foundation can be obtained by calling the Foundation at (843) 477-2112.

Financial Statements: The financial statement presentation for the College meets the requirements of Governmental Accounting Standards Board (“GASB”) Statement No. 34, *Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management’s Discussion and Analysis for Public Colleges and Universities*. The financial statement presentation provides a comprehensive, entity-wide perspective of the College’s net position, revenues, expenses and changes in net position and cash flows that replaces the fund-group perspective previously required.

During the current year, the College implemented the provisions of GASB Statement No. 87, *Leases* and GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*.

**HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

GASB Statement No. 87, *Leases*, establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset for a period of time. It requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources and outflows of resources based on the payment provisions in the contract. As required by GASB, this statement has been implemented retroactively by restating beginning net position.

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, requires interest costs be recognized as an expense as incurred. As a result, interest cost incurred during construction will not be included in the historical cost of a capital asset. The requirements of this statement will be applied prospectively.

Basis of Accounting: For financial reporting purposes, the College is considered a special purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. Student tuition and auxiliary enterprise fees are presented net of scholarships and fellowships applied to student accounts, while stipends and other payments made directly are presented as scholarship expenses. All significant intra-institutional transactions have been eliminated.

Cash and Cash Equivalents: For purposes of the statement of cash flows, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State of South Carolina State Treasurer's Office are considered cash equivalents.

Investments: Deposits and investments for the College are governed by the South Carolina Code of Laws, Title 6, Chapter 5, "Investments of Funds by Political Subdivisions". The College has implemented GASB Statement No. 40, *Deposits and Investment Risk Disclosures - an amendment to GASB Statement No. 3*. This statement requires disclosures related to deposit risks, such as custodial credit risk, and investment risks, such as credit risk (including custodial credit risk and concentrations of credit risks) and interest rate risk. The College accounts for its investments at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statement of revenues, expenses and changes in net position.

Accounts Receivable: Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from the Federal government, State and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Capital Assets: Capital assets are recorded at cost at the date of acquisition or at acquisition value at the date of donation in the case of gifts. Acquisition value is the price that would be paid to acquire an asset with equivalent service capacity in an orderly market transaction at the acquisition date. The College follows capitalization guidelines established by the State of South Carolina. All land is capitalized, regardless of cost. Qualifying improvements that rest in or on the land itself are recorded as depreciable land improvements. Major additions and renovations and other improvements that add to the usable space, prepare existing buildings for new uses, or extend the useful life of an existing building are capitalized. The College capitalizes movable personal property with a unit value in excess of \$5,000 and a useful life in excess of two years and depreciable land improvements, buildings and improvements, and intangible assets costing in excess of \$100,000. Routine repairs and maintenance and library materials, except individual items costing in excess of \$5,000, are charged to operating expenses in the year in which the expense was incurred.

HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 50 years for buildings and improvements and land improvements and 2 to 25 years for machinery, equipment, and vehicles.

Amortization of right to use assets is based on the shorter of the lease term or estimated life of the asset.

Unearned Revenues and Deposits: Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Deposits represent student fee refunds, and other miscellaneous deposits. Student deposits are recognized as revenue during the semester for which the fee is applicable and earned when the deposit is nonrefundable to the student under the forfeit terms of the agreement.

Deferred Outflows/Inflows of Resources: In addition to assets and liabilities, the statement of net position will sometime report a separate section for deferred outflows and deferred inflows of resources. These separate financial statement elements represent consumption or acquisition of net position that applies to a future period(s) and so will not be recognized as an outflow/inflow of resources (expense/revenue) until that time.

Pensions: For purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB): For purposes of measuring the College's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) and the South Carolina Long Term Disability Insurance Trust Fund (SCLTDITF) and additions to/deductions from the SCRHITF and the SCLTDITF net position have been determined on the same basis as they are reported by the SCRHITF and SCLTDITF Plan. For this purpose, the SCRHITF and the SCLTDITF recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Compensated Absences: Employee vacation pay expense is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as a component of current and long-term liabilities in the statement of net position and as a component of salary and benefit expenses in the statement of revenues, expenses, and changes in net position.

Net Position: The College's net position is classified as follows:

Net investment in capital assets: This represents the College's total investment in capital assets and intangible right to use assets, net of outstanding debt obligations and lease obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position - expendable: Restricted expendable net position include resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

**HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Restricted net position - nonexpendable: Nonexpendable restricted net position consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Unrestricted net position: Unrestricted net position represent resources derived from student tuition and fees, appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the College, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

The College policy for applying expenses that can use both restricted and unrestricted resources is to first apply the expense to restricted resources and then to unrestricted resources.

Nonexchange Transactions: Nonexchange transactions involving financial or capital resources are transactions in which the college either gives value to another party without directly receiving equal value in exchange or receives value from another party without directly giving equal value in exchange. The types of nonexchange transactions the college engages in include “Voluntary nonexchange transactions” (certain grants and donations), and “Imposed nonexchange revenue” (fines and penalties), and “Government-mandated nonexchange transactions.”

Voluntary nonexchange transactions usually involve eligibility requirements that must be met before transactions are recognized. The eligibility requirements can include one or more of the following:

- a. The recipient has the characteristics specified by the provider.
- b. Time requirements specified by the provider have been met.
- c. The provider offers resources on a reimbursement basis and allowable costs have been incurred under the applicable program.
- d. The provider’s offer of resources is contingent upon a specified action of the recipient and that action occurred.

Resources transmitted before the eligibility requirements are met are reported as advances by the provider and as unearned revenues by recipients.

Assets from imposed nonexchange revenues are recognized when an enforceable legal claim to the assets arise or when the resources are received.

Capitalized Interest: The College has adopted GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, and any interest costs incurred during the construction is expensed as incurred.

Income Taxes: The College is exempt from income taxes under the Internal Revenue Code.

Classification of Revenues: The College has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues generally result from exchange transactions to provide goods or services related to the College’s principal ongoing operations. These revenues include (1) student tuition and fees received in exchange for providing educational services and other related services to students; (2) receipts for scholarships where

the provider has identified the student recipients; (3) fees received from organizations and individuals in exchange for miscellaneous goods and services provided by the College; and (4) grants and contracts that are essentially the same as contracts for services that finance programs the College would not otherwise undertake.

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions. These revenues include gifts and contributions, appropriations, investment income, and any grants and contracts that are not classified as operating revenue or restricted by the grantor to be used exclusively for capital purposes.

Sales and Services of Educational and Other Activities: Revenues from sales and services of educational and other activities generally consist of amounts received from instructional, research, and public service activities that incidentally create goods and services which may be sold to students, faculty, staff, and the general public. The College receives such revenues primarily from the following programs: Dental Hygiene, Massage Therapy, Food Service, and Culinary Arts.

Auxiliary Enterprises and Internal Service Activities: Auxiliary enterprise revenues primarily represent revenues generated by bookstore commissions and cafeteria and vending services. Revenues of internal service and auxiliary enterprise activities and the related expenditures of college departments have been eliminated.

Restricted Cash: The College has funds which were donated by private citizens to be used as short-term loans for students having financial difficulties. The loans are short-term and payable within 90 days. The restricted cash amount equals funds available at June 30, 2021 for such loans.

Component Unit: The Foundation maintains its accounts in accordance with the principles and practices of fund accounting. Fund Accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors. Accordingly, net assets and changes therein are classified as follows:

Net Assets Without Donor Restrictions: Net assets that are not subject to donor-imposed stipulations.

Net Assets With Donor Restrictions: Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and/or the passage of time. Net assets restricted by the actions of the Foundation and/or the passage of time are temporary in nature. Other donor imposed stipulations that are permanent in nature, require that principal be maintained in perpetuity by the Foundation.

Revenues are reported as increases in unrestricted net assets classification unless use of the related assets is limited by donor-imposed restrictions. Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized as revenue until the conditions on which they depend are substantially met. Contributions for in-kind gifts from outside sources are not recorded in the Foundation's financial records, but are accounted for and acknowledged separately.

Expenses are reported as decreases in unrestricted net assets as appropriate. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law.

Investments are reported at fair value based upon quoted market prices.

NOTE 2 - DEPOSITS AND INVESTMENTS (continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the College will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party.

The College's bank balances on deposit were \$6,433,370 at June 30, 2022. Of these, \$3,698,077 were exposed to custodial credit risk as uninsured; however, were collateralized with securities held by the pledging institution in the College's name. The carrying value of these deposits was \$5,561,974. Restricted cash includes \$230,708 held for student loans. The cash balance at brokerage firms are insured up to \$250,000 by the Securities Investor Protection Corporation (SIPC) with additional insurance provided by the brokerage firm through an excess SIPC policy.

INVESTMENTS

The College is authorized, by the South Carolina Code of Laws, Title 6, Chapter 5, to invest in obligations of the United States and its agencies, obligations of the State of South Carolina and its political subdivisions, collateralized or federally insured certificates of deposit, and collateralized repurchase agreements.

The College's investments at June 30, 2022, that are not with the State Treasurer's Office are presented below. All investments are presented by investment type and by maturity.

NOTE 2 - DEPOSITS AND INVESTMENTS (continued)

Horry – Georgetown Technical College holds investments that are measured at fair value on a recurring basis. The College categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

	<u>June 30, 2022</u>	<u>Fair Value Measurements Using</u>		
		<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>

Total Debt Securities	\$ 66,786,606	\$ 11,138,162	\$ 55,648,444	\$ 0

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities in Level 2 are valued at quoted prices in markets that are not active or observable inputs over the full term of the asset or liability.

Debt and equity securities classified as Level 2 are valued using the following approaches:

- U.S. Treasuries, U.S. Agencies are valued at quoted prices for identical securities in markets that are not active.
- Corporate and Municipal Bonds are quoted prices for similar securities in active markets.
- Money Market Mutual Funds are published fair value per share (unit) for each fund.

The College did not have any Level 3 investments as of June 30, 2022.

Deposits - Discretely Presented Component Unit

Cash and cash equivalents consist of amounts on deposit, including interest-bearing deposits. The balances on deposit were insured up to \$250,000 by the Federal Deposit Insurance Corporation (FDIC). The balances at the brokerage firm are insured up to \$500,000 by the Securities Investor Protection Corporation (SIPC) with additional insurance provided by the brokerage firm through an excess SIPC policy.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of a failure of the counter-party to a transaction, the College will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. The College does not have a formal investment policy that addresses custodial credit risk. Of the College's \$15,951,927 investment in repurchase agreements, \$15,951,927 of the underlying securities are held by the investments counter-party in the College's Name.

Interest Rate Risk

Interest Rate Risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment.

The College does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The College does not have an investment policy regarding credit risk.

The College's rated debt investments as of June 30, 2022, were rated by Standard & Poor's and are listed below using the Standard & Poor's rating scale.

NOTE 7 - PENSION AND RETIREMENT PLAN

Plan Descriptions

The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.

The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts and individuals first elected to the S.C. General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party service providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the four third party service providers. For this reason, State ORP assets are not part of the retirement systems' trust funds for financial statement purposes.

The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits to police officers and firefighters. PORS also covers peace officers, coroners, probate judges and magistrates.

The South Carolina Public Employee Benefit Authority (PEBA), which was created July 1, 2012, administers the various retirement systems and retirement programs managed by its Retirement Division. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as co-trustee and co-fiduciary of the systems and the trust funds. By law, the Budget and Control Board, which consists of five elected officials, also reviews certain PEBA Board decisions regarding the funding of the South Carolina Retirement Systems (Systems) and serves as a co-trustee of the Systems in conducting that review.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, PO Box 11960, Columbia, SC 29211-1960. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

State ORP – As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program (State ORP), which is a defined contribution plan. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the investment providers. Employee and Employer contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employers to the member's account with investment providers for the employee contribution (9 percent) and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution (11.41 percent) and an incidental death benefit contribution (.15 percent), if applicable, which is retained by SCRS.

PORS – To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation. A brief summary of the benefit terms for each system is presented below.

SCRS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable services equals at least ninety years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age sixty if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active or retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

PORS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS and PORS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS and PORS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS and 9.75 percent for PORS. The legislation also increased employer contribution rates beginning July 1, 2017 for both SCRS and PORS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year in accordance with state statute. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS and PORS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS and PORS contribution rates until the funded ratio is at least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, then the board, effective on the following July 1, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July 1, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

Employer contribution rates increased by one percentage point for the 2021-2022 fiscal year. PEBA issued credit invoices to each employer for one percent of employer contributions based on its share of the appropriated funds. The College's share of appropriated funds were \$196,119 and will be reported as revenues from a contribution made by a non-employer contributing entity and a reduction of net pension liability as of June 30, 2022 measurement date. The College reported \$196,119 as non-employer contribution revenue for the 2021 fiscal year.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the College reported \$41,149,107 and \$133,483 for its proportionate shares of the net pension liabilities of SCRS and PORS, respectively. The net pension liability of each defined benefit pension plan was determined based on the July 1, 2020 actuarial valuations, using membership data as of July 1, 2020, projected forward to June 30, 2021, and financial information of the pension trust funds as of June 30, 2021, using generally accepted actuarial procedures. The College's proportion of the net pension liability was based on the College's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2022, the College SCRS proportion was .190142 percent measured as of June 30, 2021. The College's PORS proportion of the net pension liability at June 30, 2021 was .005188 percent. The College's proportionate share for the fiscal year ending June 30, 2021 as of the measurement date of June 30, 2020 for the SCRS was .190836 percent and .005705 percent for the PORS.

Pension Expense

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

Actuarial Assumptions and Methods

Actuarial valuations of the ongoing plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2019.

The June 30, 2021, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by our consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2020. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2021, using generally accepted actuarial principles. There was no legislation enacted during the 2021 legislative session that had a material change in the benefit provisions for any of the systems. In FY 2021 the Board adopted updated demographic assumptions. Also, the General Assembly permitted the investment return assumption at July 1, 2021 to decrease from 7.25% to 7.00%, as provided by Section 9-16-335 in South Carolina State Code.

The following table provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2021.

	SCRS	PORS
Actuarial cost method	Entry age normal	Entry age normal
Investment rate of return ¹	7.0%	7.0%
Projected salary increases	3.0% to 11.0% (varies by service) ¹	3.5% to 10.5% (varies by service) ¹
Benefit adjustments	lesser of 1% or \$500 annually	lesser of 1% or \$500 annually
¹ includes inflation at 2.25%		

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2020 Public Retirees of South Carolina Mortality table (2020 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvements in mortality using 80% of Scale UMP projected from the year 2020.

Assumptions used in the determination of the June 30, 2021, TPL are as follows:

Former Job Class	Males	Females
Educators	2020 PRSC Males multiplied by 95%	2020 PRSC Females multiplied by 94%
General Employees and Members of the General Assembly	2020 PRSC Males multiplied by 97%	2020 PRSC Females multiplied by 107%
Public Safety and Firefighters	2020 PRSC Males multiplied by 127%	2020 PRSC Females multiplied by 107%

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2021, for SCRS and PORS are presented below.

System	Total Pension Liability	Plan Fiduciary Net Position	Employers' Net Position Liability (Asset)	Plan Fiduciary Net Position as a Percentage of the Total Pension Liability
SCRS	\$ 55,131,579,363	\$ 33,490,305,970	\$ 21,641,273,393	60.7%
PORS	8,684,586,488	6,111,672,064	2,572,914,424	70.4%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the System's financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon the 20 year capital market assumptions. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2021 fiscal year. The long-term expected rate of return is produced by weighing the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table following. For actuarial purposes, the 7.00 percent assumed annual investment rate of return used in the calculation of the total pension liability includes a 4.75 percent real rate of return and a 2.25 percent inflation component.

Deferred Retirement Option Plans

The Teacher and Employee Retention Incentive (TERI) program, established by State law, became effective January 1, 2001. The program is a deferred retirement option available to SCRS members eligible for services retirement. Upon entering the TERI program, a member’s status changes from active to retired. A TERI participant agrees to continue employment with an employer participating in the system for a specified period, not to exceed five years. TERI participants retain the same status and employment rights they held upon entering the program but are not considered active employees for purposes of the disability retirement programs. A TERI retiree’s monthly benefits are accrued and remain in the SCRS trust account during the TERI participation period, but no interest is accrued or paid thereon. Upon termination of employment or at the end of the TERI participation period (whichever is earlier), a retiree may roll over some or all of the accumulated TERI balance into a qualified, tax-sheltered retirement plan and/or receive a lump-sum distribution.

Optional Retirement Program

As an alternative to membership in SCRS, certain State, public school, and higher education employees and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program. Participants in the State ORP direct the investment of their funds into a plan administered by one of four investment providers and are governed by the terms of the contracts that those providers issue.

Under State law, College contributions to the ORP are at the same rates as of the SCRS (see Subsection c, Funding Policies). A direct remittance is required from the employers to the investment providers for the employee contribution (9.00%) and a portion of the employer contribution (5.00%), which is immediately vested to the employee. A direct remittance is also required to the SCRS for a portion of the employer contribution (11.41%) and a group life contribution (.015%), which is retained by the SCRS. The activity for the College participation in the State ORP is as follows:

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The Other Post-Employment Benefits Trust Funds (OPEB Trusts), collectively refers to the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) and the South Carolina Long-Term Disability Insurance Trust Fund (SCLTDITF), were established by the State of South Carolina as Act 195, which became effective in May, 2008. The SCRHITF was created to fund and account for the employer costs of the State’s retiree health and dental plans. The SCLTDITF was created to fund and account for the employer costs of the State’s Basic Long-Term Disability Income Benefit Plan.

In accordance with Act 195, the OPEB Trusts are administered by the PEBA – Insurance Benefits and the State Treasurer is the custodian of the funds held in trust. The Board of Directors of PEBA has been designated as the Trustee.

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

The OPEB Trusts are cost-sharing multiple-employer defined benefit OPEB plans. Article 5 of the State Code of Laws defines the two plans and authorizes the Trustee to at any time adjust the plans, including its benefits and contributions, as necessary to insure the fiscal stability of the plans. In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents.

Benefits

The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies, and public school districts. The SCRHITF provides health and dental insurance benefits to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008 and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

The SCLTDITF is a long-term disability plan that covers employees of the State of South Carolina, including all agencies and public school districts and all participating local governmental entities. The SCLTDITF provides disability payments to eligible employees that have been approved for disability.

Contributions and Funding Policies

Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the postemployment and long-term disability benefits to be funded through non-employer and employer contributions for active employees and retirees to the PEBA – Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA – Insurance Benefits reserves.

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2022 was 6.25 percent. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF also include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer's active employees. For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer's contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA – Insurance Benefits' reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income. The College paid \$1,514,566 applicable to be surcharge included with employer contributions for retirement benefits for the year ended June 30, 2022. The College recorded non-employer contributions of \$5,939 to the SCRHITF for the year ended June 30, 2022.

The SCLTDITF is funded through employer contributions for active employees that elect health insurance coverage. For this group of active employees, PEBA-Insurance Benefits bills and collects premiums charged to State agencies, public school districts and other participating local governments. The monthly premium per active employee was \$3.22 for the fiscal year ended June 30, 2022. The SCLTDITF premium is billed monthly by PEBA – Insurance Benefits and transferred monthly to the SCLTDITF. It is also funded through investment income. The allocation percentage of the OPEB amounts are calculated differently for each OPEB Trust. For the SCRHITF, the allocation percentage is based on the covered payroll surcharge contribution for each employer. The College recorded employer

contribution expense applicable for these benefits of \$11,634 for June 30, 2022 and recorded \$0 as non-employer contributions for the SCLTDITF for the year ended June 30, 2022.

In accordance with part (b) of paragraph 69 of GASB Statement No. 75, participating employers should recognize revenue in an amount equal to the employer's proportionate share of the change in the collective net OPEB liability arising from contributions to the OPEB plan during the measurement period from non-employer contributing entities for purposes other than the separate financing of specific liabilities to the OPEB plan. Therefore, employers should classify this revenue in the same manner as it classifies grants from other entities.

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trusts, and additions to and deductions from the OPEB Trusts fiduciary net position have been determined on the same basis as they were reported by the OPEB Trusts. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value.

PEBA – Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Funds. This information is publicly available through the PEBA – Insurance Benefits' link on PEBA's website at www.peba.sc.gov or a copy may be obtained by submitting a request to PEBA – Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, OPEB Trust fund financial information is also included in the comprehensive annual financial report of the state.

Deferred Outflows of Resources and Deferred Inflows of Resources related to Post-Employment Benefits Other Than Pensions

At June 30, 2022, Horry – Georgetown Technical College reported an OPEB (Other Post-Employment Benefits) liability of \$52,063,783 for Retiree Health Insurance. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of the June 30, 2020 valuation date. At June 30, 2021, the College's proportion of the OPEB Health Liability was .250150% and the College's proportion of the OPEB Health Liability at June 30, 2022 was .250028%.

For the year ended June 30, 2022, Horry – Georgetown Technical College recognized OPEB Health expense of \$4,417,662 for OPEB Health. At June 30, 2022, the College reported deferred outflows of resources and deferred inflows of resources related to Post-Employment Benefits Other Than Pensions (OPEB) for South Carolina Retiree Health Insurance Trust Fund (SCRHITF) from the following sources:

Payable to OPEB Plans

As of June 30, 2022, the College had \$108,880 in outstanding payables for the SCRHITF and \$0 in outstanding payables to the SCLTDITF at year end. These amounts are reported in the statement of net position salaries and benefits payable.

Actuarial Assumptions and Methods

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Projections of benefits for financial reporting purposes are based on the substantive plans (as understood by the employer and plan participants) and include the types of benefits provided at the time the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The following table provides a summary of the actuarial assumptions and methods used in the June 30, 2021 actuarial valuation for SCRHITF:

Actuarial Assumptions:	SCRHITF
Valuation Date	June 30, 2020
Actuarial Cost Method	Individual Entry – Age Normal
Inflation	2.25%
Investment Rate of Return	2.75%, net of OPEB Plan investment expense; including inflation
Single Discount Rate	1.92% as of June 30, 2021
Demographic Assumptions	Based on the experience study performed for the South Carolina Retirement Systems for the 5-year period ending June 30, 2019
Mortality Assumptions	For healthy retirees, the gender-distinct South Carolina Retirees 2020 Mortality Tables are used with fully generational mortality projections based on a fully generational basis by the 80% of Scale UMP to account for future mortality improvements and adjusted with multipliers based on plan experience.
Healthcare Trend Rates	Initial trend starting at 6.00% and gradually decreasing to an ultimate trend rate of 4.00% over a period of 15 years
Participation Assumptions	79% participation for retirees who are eligible for Funded Premiums. 59% participation for retirees who are eligible for Partial Funded Premiums. 20% participation for retirees who are eligible for Non-Funded Premiums.
Notes	The discount rate changed from 2.45% as of June 30, 2020 to 1.92% as of June 30, 2021. In addition, the demographic and salary increases assumptions were updated to reflect the 2020 SCRS experience study and the health care trend rates were reset to better reflect the plan’s anticipated experience.

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

The following table provides a summary of the actuarial assumptions and methods used in the June 30, 2021 actuarial valuation for SCLTDITF:

Actuarial Assumptions:	SCLTDITF
Valuation Date	June 30, 2020
Actuarial cost method	Individual Entry – Age Normal
Inflation	2.25%
Investment Rate of Return	3.00%, net of Plan investment expense; including inflation
Single Discount Rate	2.48% as of June 30, 2021
Salary, Termination Rates, and Retirement Rates	Based on the experience study performed for the South Carolina Retirement Systems for the 5-year period ending June 30, 2019
Disability Incidence	The disability incidence rates used in the LTD valuation are 165% of the rates developed for the pension plans.
Disability Recovery	For participants in payment, 1987 CGDT Group Disability; for active employees, 60% were assumed to recover after the first year and 93% were assumed to recover after the first two years
Offsets	45% are assumed to be eligible for Social Security benefits; assumed percentage who will be eligible for a pension plan offset varies based on employee group
Expenses	Third party administrative expenses were included in the benefit projections
Notes	The Single Discount Rate changed from 2.83% as of June 30, 2020 to 2.48% as of June 30, 2021. Additionally, the salary, termination rates and retirement rates assumption were updated to reflect the 2020 experience study for the South Carolina Retirement Systems' pension valuations, and the disability incidence, disability recovery, administration fee and offset assumptions were updated to better reflect the plan's anticipated experience.

Roll Forward Disclosures

The actuarial valuations were performed as of June 30, 2020. Update procedures were used to roll forward the total OPEB liabilities to June 30, 2021.

Net OPEB Liability

The Net OPEB Liability (NOL) is calculated separately for each OPEB Trust Fund and represents that particular Trust's Total OPEB Liability (TOL) determined in accordance with GASB Statement No. 74 less that Trust's fiduciary net position. The allocation of each employer's proportionate share of the collective Net OPEB Liability and collective OPEB expense was determined using the employer's payroll-related contributions over the measurement period. This method is expected to be reflective of the employer's long-term contribution effort as well as be transparent to individual employers and their external auditors.

The following table represents the components of the net OPEB liability as of June 30, 2021:

OPEB Trust	Total OPEB Liability	Plan Fiduciary Net Position	Employers' Net OPEB Liability (Asset)	Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability
SCRHITF	\$ 22,506,597,989	\$ 1,683,416,992	\$ 20,823,180,997	7.48%
SCLTDITF	44,378,931	41,201,247	3,177,684	92.84%

**HORRY - GEORGETOWN TECHNICAL COLLEGE
CONWAY, SOUTH CAROLINA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022**

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

The TOL is calculated by the Trusts' actuary, and each Trust's fiduciary net position is reported in the Trust's financial statements. The NOL is disclosed in accordance with the requirements of GASB Statement No. 74 in the Trusts' notes to the financial statements and required supplementary information. Liability calculations performed by the Trusts' actuary for the purpose of satisfying the requirements of GASB Statements No. 74 and 75 and are not applicable for the other purposes, such as determining the Trusts' funding requirements.

Single Discount Rate

The Single Discount Rate of 1.92% was used to measure the total OPEB liability for the SCRHITF. The accounting policy for this plan is to set the Single Discount Rate equal to the prevailing municipal bond rate. The Fidelity "20-Year Municipal GO AA Index" for fixed-income municipal bonds with 20 years to maturity that include only federal tax-exempt municipal bonds was used for reporting as of June 30, 2021. Due to the plan's investment and funding policies, the difference between a blended discount rate and the municipal bond rate would be less than several basis points (several hundredths of one percent). Therefore, the plan used a Single Discount Rate for GASB 74 purposes which is equal to the municipal bond rate.

A Single Discount Rate of 2.48% was used to measure the total OPEB liability for the SCLTDITF. This Single Discount Rate was based on an expected rate of return on plan investments of 3.00% and a municipal bond rate 1.92%. The projection of cash flows to determine this Single Discount Rate assumed that employer contributions will remain \$38.64 per year for each covered active employee. Based on these assumptions, the plan's Fiduciary Net Position and future contributions were sufficient to finance the benefit payments through the year 2037. As a result, the long-term expected rate of return on plan investments was applied to project benefit payments through the year 2037, and the municipal bond rate was applied to all benefit payments after that date.

Long-Term Expected Rate of Return

The long-term expected rate of return represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following tables:

South Carolina Retiree Health Insurance Trust Fund			
Asset Class	Target Asset Allocation	Expected Arithmetic Real Rate of Return	Allocation- Weighted Long- Term Expected Real Rate of Return
U.S. Domestic Fixed Income	80.00%	0.60%	0.48%

For the SCRHITF and the SCLTDITF, the annual money-weighted rate of return on the plan investments were 0.39% and -0.42%, respectively.

Sensitivity Analysis

The following table presents the College's proportionate share of the SCRHITF net other postemployment benefits (OPEB) liability calculated using the discount rate of 1.92 percent, as well as what the College's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (0.92 percent) or 1 percentage point higher (2.92 percent) than the current rate:

**Sensitivity of the SCRHITF Net OPEB Liability to Changes in the

NOTE 9 - CONTINGENCIES, LITIGATION, AND PROJECT COMMITMENTS

Like any entity, the College may be subject to various litigations in the normal course of business. However, as of the audit date, the College is not involved in any such litigation. The College also maintains appropriate insurance coverage to offset any significant financial losses associated with legal liabilities. It should be noted that the College participates in certain Federal grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Management believes disallowances, if any, will not be material.

As of June 30, 2022 the outstanding project commitments were as follows:

Project	Expenditures To Date	Estimated Total Project	Estimated Completion Date
Diesel Building including Renovations	\$ 896,225	\$ 2,400,000	Fall 2022
Grand Strand Building 1000 Improvement Surgical Technology	388,897	425,000	Summer 2022
	\$ 1,285,122	\$ 2,825,000	

Other than the information outlined and discussed above, the College's management is aware of no other contingencies, litigations or other financial or legal commitments.

NOTE 11 - RELATED PARTIES

Certain separately chartered legal entities exist, whose activities are related to those of the College, primarily to provide financial assistance and other support to the College and its educational programs. Financial statements for these entities are audited by independent auditors and retained by them. They include the Horry - Georgetown Technical College Foundation, Inc.

Management reviewed its relationship with the Foundation under the existing guidance of GASB Statement No. 14, as amended by GASB Statement No. 39 as amended by GASB Statement No. 61. Because of the nature and significance of its relationship with the College, the Foundation is considered a component unit of the College.

Following is a more detailed discussion of this entity and a summary of significant transactions (if any) between this entity and the College for the year ended June 30, 2022.

The Horry - Georgetown Technical College Foundation, Inc.

The Foundation is a separately chartered corporation organized exclusively to receive and manage private funds for the exclusive benefit and support of the College. The Foundation's activities are governed by its Board of Directors who are not members of the College's Board of Directors.

NOTE 11 - RELATED PARTIES (continued)

The College recorded non-governmental gift receipts of \$309,434 from the Foundation in nonoperating revenues for the fiscal year ended June 30, 2022. These funds were used primarily to support the College by way of program development, construction projects, and program support. The Foundation reimburses the College for any purchases made by the College on behalf of the Foundation. The College provides office space and support services to the Foundation. The value of this office space and support services was approximately \$3,600 for the year ended June 30, 2022.

The Foundation's assets as of June 30, 2022 were \$15,699,346. As of June 30, 2022 the Foundation had \$1,049,630 in receivables, primarily due from donors (via pledges) and \$95,080 in outstanding liabilities primarily due to the College, for the Speir expansion.

NOTE 12 - RISK MANAGEMENT

The College is exposed to various risks of loss and maintains State or commercial insurance coverage for each of those risks. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. Settlement claims have not exceeded this coverage in any of the past three years.

The State of South Carolina believes it is more economical to manage certain risks internally and set aside assets for claim settlement. Several State funds accumulate assets and the State itself assumes substantially all the risk for the following claims of covered employees:

- Unemployment compensation benefits
- Worker's compensation benefits for job-related illnesses or injuries
- Health and dental insurance benefits
- Long-term disability and group-life insurance benefits

Employees elect health insurance coverage through either a health maintenance organization or through the State's self-insured plan.

The College and other entities pay premiums to the State's Insurance Reserve Fund (IRF), which issues policies, accumulates assets to cover the risk of loss, and pays claims incurred for covered losses relating to the following activities:

- Theft, damage to, or destruction of assets
- Real property, its contents, and other equipment
- Motor vehicles and watercrafts
- Torts
- Natural disasters

The IRF is a self-insurer and purchases reinsurance to obtain certain services and to limit losses in certain areas. The IRF's rates are determined actuarially.

The College obtains coverage through a commercial insurer for employee fidelity bond insurance for all employees for losses arising from theft or misappropriation.

NOTE 13 - NATIONAL FEDERAL DIRECT SUBSIDIZED AND UNSUBSIDIZED STAFFORD LOANS

The College participates in the National Federal Direct Subsidized and Unsubsidized Stafford Loan Program, which allows the College to disburse federal loans to students which are administered by the U.S. Department of Education. The loan activity is not reported in the accompanying financial statements because the responsibility for administration and collection passes to the U.S. Department of Education after the loans are disbursed. The College made loan disbursements of \$12,055,698 under this program during the fiscal year 2022.

NOTE 14 – CUSTODIAL FUNDS

The College accounts for the GCSAA account as a custodial fund. This organization exists for the benefit of the golf course department. The department raises the funds and disburses the funds raised for charitable purposes. The College does not have any administrative control over these funds. The assets are reported in the financial statements along with a liability for funds held for others.

The following is a summary of the changes in the Student Activity Fund:

NOTE 19 – TAX ABATEMENTS

The College does not negotiate or enter into an agreement for tax abatements. The College is subject to any tax abatement agreements entered by Horry County. Horry County provides tax abatement incentives through three programs to encourage economic development, attract new businesses, and retain existing businesses – Fee in Lieu of Tax, Multi-County Business Parks, and Special Source Revenue Credits:

- A Fee in Lieu of Tax (FILOT) is authorized under South Carolina Code Title 12, Chapter 44, Title 4, Chapter 29, or Title 4, Chapter 12. The FILOT is used to encourage investment and provides a reduction of property tax when a business invests a minimum of \$2,500,000 within a 5-6 year investment period (beginning with date property is placed in service, ending five years after the last day of the property tax year in which the property is initially placed in service). The reduction in property taxes is accomplished by a reduction of assessed value, reduction in millage rate and elimination of (or reduction in) number of times millage rates are changed. In addition, an agreement may allow the possible use of net present value method over term of FILOT to equalize payments. Repayment of incentive is required by state law if taxpayer fails to meet statutory minimum investment requirement. Other recapture provisions may be negotiated (such as a pro rata clawback for failure to meet and/or maintain jobs/investment).

NOTE 19 – TAX ABATEMENTS (continued)

- A Multi-County Business Park (MCBP) is authorized under Article VIII, Section 13(d) of the Constitution of South Carolina, as amended and South Carolina Title 4, Chapter 1. A MCBP is used to promote the economic welfare of their citizens by inducing businesses to invest in the Counties through the offer of benefits available under South Carolina law pursuant to multi-county business park arrangements. The designation as a MCBP provides that all real and personal property located in the Park shall be exempt from all ad valorem taxation. This is typically used in the creation of a FILOT or SSRC, but also has the additional benefit of exemption of property from the rollback taxes when the property was previously taxed as agricultural property. When agricultural real property is applied to a use other than agricultural, it is subject to additional taxes, referred to as rollback taxes. The amount of the rollback taxes is equal to the sum of the differences, if any, between the taxes paid or payable on the basis of the fair market value for agricultural purposes and the taxes that would have been paid or payable if the real property had been valued, assessed, and taxed as other real property in the taxing district (except the value of standing timber is excluded), for the current tax year (the year of change in use) and each of the immediately preceding five tax years.
- A Special Source Revenue Credit (SSRC) is authorized under South Carolina Code Sections 4-29-68, 4- 1-170, and 12-44-70. The SSRC is used to encourage investment and provides a credit against property taxes in the form of a percentage reduction or a dollar amount reduction. County manually applies SSRC to reduce applicable property tax bill. To receive the credit, a business must incur costs of designing, acquiring, constructing, improving, or expanding improved or unimproved real estate or personal property used in the operation of a manufacturing or commercial enterprise, infrastructure servicing the project, or certain aircraft.

For the fiscal year ended June 30, 2022, the County abated College property tax revenues of \$2,347 under agreements entered into by the County. The table below summarizes the tax abatements by program:

<u>Tax Abatement Program</u>	<u>Horry County Abatement</u>
Fee In Lieu of Tax (FILOT)	\$ 2,079
Multi-County Business Park (Rollback Taxes)	0
Special Source Revenue Credit (SSRC)	268
Total	<u>\$ 2,347</u>

The College has chosen to disclose information about some of its tax abatement agreements individually. It established a quantitative threshold of 10 percent of the total dollar amount of taxes abated during the year.

- A FILOT agreement with a medical facility located in the unincorporated area of Horry County. This agreement was completed in 2018. The abatement amounted to \$1,733.
- A FILOT agreement with a manufacturer for relocation of their existing facility located in unincorporated area of Horry County. The agreement was completed in 2013. The abatement amounted to \$980.
- A FILOT agreement with a manufacturer for expansion of their existing facility located in the Atlantic Center Industrial Park. This agreement was completed in 2009. The abatement amounted to \$571.
- A FILOT agreement with a forest product manufacturer for expansion of their existing facility located in unincorporated area of Horry County. This agreement was completed in 2003. The abatement amounted to \$439.

The School has not made any commitments as part of the agreements other than to reduce property taxes.

NOTE 20 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

GASB has issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This statement requires that a contract that conveys control of the right-to-use a vendor’s information technology (IT) software be recognized as a right-to-use subscription asset (an intangible asset) and a corresponding subscription liability. The standard is applicable for periods beginning after June 15, 2022. The College has not yet determined the impact of this statement on the financial statements.

GASB has issued Statement No. 100, *Accounting Changes and Error Corrections*, to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information. The requirements of this statement are effective for periods beginning after June 15, 2023.

GASB has issued Statement No. 101, *Compensated Absences*, to align the recognition and measurement guidance under a unified model and to amend certain previously required disclosures. This standard is effective for periods beginning after December 15, 2023.

NOTE 21 – PANDEMIC UNCERTAINTY

On March 10, 2020, the World Health Organization declared the 2019 Novel Coronavirus (Covid-19) outbreak to be a pandemic. Actions were taken around the world to help mitigate the spread including restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The Coronavirus has adversely affected and may continue to adversely affect economic activity globally, nationally, and locally. While it is unknown how long these conditions will last and what the complete financial effect will be to the College, the College could experience declines in revenues due to reduced revenue and adverse effects on the College.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

Horry – Georgetown Commission for Technical Education
Horry – Georgetown Technical College
Conway, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Horry – Georgetown Technical College, as of and for the year ended June 30, 2022 and the related notes to the financial statements which collectively comprise Horry – Georgetown Technical College's basic financial statements and have issued our report thereon dated October 3, 2022. Our report includes a reference to other auditors who audited the financial statements of Horry – Georgetown Technical College Educational Foundation, Inc., as described in our report on Horry – Georgetown Technical College's financial statements. The financial statements of Horry – Georgetown Technical College Educational Foundation, Inc. were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with Horry – Georgetown Technical College Educational Foundation.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Horry – Georgetown Technical College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Horry – Georgetown Technical College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weakness or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE**

Horry – Georgetown Commission for Technical Education
Horry – Georgetown Technical College
Conway, South Carolina

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Horry – Georgetown Technical College's compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of Horry – Georgetown Technical College's major federal programs for the year ended June 30, 2022. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Horry – Georgetown Technical College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Horry – Georgetown Technical College and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the College's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the College's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Horry – Georgetown Technical College's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the College's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the College's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the College's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency or combination of deficiencies, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
