NURSING CLINICAL SKILLS VALIDATION CHECKLIST

The following clinical skills indicated by an asterisk (*) in the left-hand margin must be successfully completed in the clinical setting prior to graduation. If more than 7% of the required skills have not been performed satisfactorily by the end of the final semester, the student must perform a satisfactory return demonstration in the lab-setting. Those skills not asterisked in the left-hand margin will be validated as clinical opportunities are available.

Skills typed in small letters may be performed independently after instructor validation in the clinical setting. The skills typed in all CAPITAL LETTERS may not be performed without direct supervision of the instructor/preceptor.

The instructors must **initial** the clinical skills as it is performed satisfactorily in the clinical setting for each semester. If the skills is performed unsatisfactorily, then, the instructor places a **bold asterisk** in the designated sign-off slot, but does not initial it. Additional instructor comments may be written on the last page of this form to explain red asterisks.

The ultimate responsibility for maintaining this document rests on the student. It is to be used as a guide for seeking out appropriate and needful learning experiences.

NURSING CLINICAL SKILLS VALIDATION CHECKLIST

BASIC SKILLS								
Demonstration Of Competence			CLASSES					
			<i>Instructions: If performance is satisfactory, clinical instructor must place his/her initials under each semester and each row. If performance is unsatisfactory, clinical instructor must place a red (*) asterisk without the initials.</i>					
	A. CPR (Independent Study)	NUR 101 or NUR 201						
	B. Temperature							
*	1) Oral							
	2) Rectal							
	3) Temporal							
	4) Tympanic							
	5) Axillary							
	C. Pulse		PNR 110					
*	1) Apical							
*	2) Peripheral							
	3) Doppler							
*	D. Respirations							
*	E. Blood Pressure							
	F. Height							
	G. Weight							
	H. Assessment	NUR 120 NUR 201 or PNR 110						
	1) Head to Toe							
	2) Breath Sounds							
	3) Bowel Sounds							
*	4) Fundus Check	NUR 220 or PNR 154						
*	5) Fetal Heart Tones							
	I. Documentation	NUR 101 or NUR 201 PNR 110						
*	1) Vital Signs & Graphics							
	2) Admission							
	3) Discharge							
	4) Transfer							
*	5) Head to Toe Assessment							
SAFETY								
*	A. Hand washing	NUR 101						
*	B. Occupied bed making

	C. Unoccupied bed making	or NUR 201 PNR 110						
	D. Restraints							
*	E. Standard Precautions							
	F. Isolation Procedures							
	G. Baths							
	1) Complete Bed Bath							
	2) Sponge Bath							
	3) Sitz Bath	NUR 220 PNR 110 PNR 154						
	4) Baby Bath							
	5) Peri Care							
	6) Shampoo	NUR 101 or NUR 201						
	7) Oral Care							
	8) Facial Shave							
	9) Post Mortem Care							
	H. MEDICATIONS	PNR 110						
*	1) ORAL							
	Demonstration Of Competence		CLASSES <i>Instructions: If performance is satisfactory, clinical instructor must place his/her initials under each semester and each row. If performance is unsatisfactory, clinical instructor must place a red (*) asterisk without the initials.</i>					
*	2) SUBCUTANEOUS	NUR 101 or NUR 201 PNR 120 or PNR 130						
	3) INTRADERMAL							
*	4) INTRAMUSCULAR (Z-TRACK)							
	5) FILTER NEEDLE							
	6) INHALANTS							
	7) TOPICAL							
	8) SUPPOSITORIES							
	9) EAR gtts							
	10) EYE gtts							
	11) Via NGT or GT							
*	12) INSULIN MIX							
*	13) MIX POWDERED DRUGS		NUR 101, NUR120 or NUR 201					
*	I. Sterile gloving		NUR 101 PNR 110					
	J. Operative Procedures							
	1) Skin prep	NUR 120
