INDEPENDENT AUDITOR'S REPORT

Horry – Georgetown Commission for Technical Education
Horry – Georgetown Technical College
Conway, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of Horry – Georgetown Technical College, a component unit of the State of South Carolina, as of and for the years ended June 30, 2021 and June 30, 2020 and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents. We did not audit the financial statements of Horry - Georgetown Technical College Foundation, Inc. which represents 100 percent of the discretely presented component unit presented in the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Horry – Georgetown Technical College Foundation, Inc. which represents 100 percent of the discretely presented component unit presented in the financial statements. Those financial statements were audited by other auditors whose report has been furnished to us, and our opinion on the basic financial statements insofar as it relates to the amounts included for Horry – Georgetown Technical College Foundation, Inc. as a discretely presented component unit, is based solely on the report of other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our report and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of Horry – Georgetown Technical College, as of June 30, 2021 and June 30, 2020, and the respective changes in the financial position and, where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note 1 and Note 22 to the financial statements, the College adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*. The 2020 financial statements have been retroactively adjusted to reflect the adoption of this statement. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 11 and supplementary pension information and supplementary OPEB information on pages 54 through 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Horry – Georgetown Technical College's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is also not a required part of the basic financial statements.

The accompanying schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our report and the report of other auditors, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 24, 2021 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Report on State Lottery Assistance Program

We have also issued our report dated September 24, 2021 on our consideration of Horry – Georgetown Technical College's administration of the State Lottery Assistance Program and on our tests of its compliance with certain provisions of state law and policy 3-2-307 and procedure 3-2-307.1 of the State Board for Technical and Comprehensive Education.

Report on State Supported Scholarship and Grants

We have also issued our report dated September 24, 2021 on our consideration of Horry – Georgetown Technical College's administration of the state supported scholarships and grants and on our tests of its compliance with certain provisions of the state legislation and the regulations of the South Carolina Commission on Higher Education.

MANAGEMENT’S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of Horry-Georgetown Technical College offer users and other readers of the College's financial statements this narrative overview and analysis of its financial activities for the fiscal years ended June 30, 2021 and June 30, 2020. This discussion and analysis should be read in conjunction with the consolidated financial statements and the footnotes thereto, which follow this section.

The financial statement presentation format provides a comprehensive, entity-wide perspective of the College's assets, liabilities, net assets, revenues, expenses, changes in net assets, and cash flows. The financial statements are designed to emulate corporate presentation models whereby all College activities are consolidated into one total. The Statement of Net Position combines and consolidates current financial resources (short-term spendable resources) with capital assets and discloses any debt obligations.

The Statement of Revenues, Expenses, and Changes in Net Position focuses on both the gross costs and the net costs of College activities which are supported substantially by property taxes, state allocation, state and federal grants and contracts, student tuition and fees and auxiliary enterprise revenues. This approach is intended to summarize and simplify an analysis of costs for various College services to students and the public.

As additional information, financial statements for the Horry-Georgetown Technical College Foundation (the Foundation) are also included. All financial activities and balances of the Foundation are disclosed as a discretely presented component unit.

Financial Highlights

- The College experienced a strong year financially as evidenced by a substantial increase in net assets from $77,580,834 to $86,675,207, or by $9,094,373 or approximately 11.72%.
- The College is in the midst of a multi-year capital improvement initiative that includes refurbishing and expanding existing buildings and improving its information technology infrastructure. These capital improvements are financed by College Funds, State and Local funding, private donations, and the local Educational Capital Improvement Sales and Use (Penny) Tax.
- In spite of the economic uncertainties associated with the COVID-19 pandemic and ongoing enrollment pressure as part of national trends, the College was able to significantly increase its net assets during the year, thus providing overwhelming evidence of its financial strength and overall fiscal health.

Overview of the Financial Statements

The College is engaged only in Business-Type Activities (BTA) that is financed in part by fees charged to students for educational services. Accordingly, its activities are reported using the three financial statements required for proprietary funds: Statement of Net Position; Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

The Statement of Net Position presents the financial position of the College at the end of the current fiscal year, and classifies assets and liabilities into current and non-current. The difference between total assets and total liabilities is net position, which is displayed in three broad categories: Investment in Capital Assets (net of related debt); Restricted Assets; and Unrestricted Assets. Net Position is one indicator of the current financial condition of the College, while the change in Net Position is an indicator of whether the overall financial condition has improved or worsened during the year.

The Statement of Revenues, Expenses, and Changes in Net Position is a statement of net income with an entity-wide perspective. Revenues and expenses are categorized by operating and non-operating, and expenses are reported by object type.

The Statement of Cash Flows will aid readers in identifying the sources and uses of cash by the major categories of operating, capital and related financing, non-capital financing, and investing activities. This statement also emphasizes the College's dependence on state and county appropriations by separating them from operating cash flows.

Financial Analysis

In addition to the financial information, charts and graphs are provided to enhance an understanding of the institutions financial condition and related changes from the prior fiscal year. Fiscal year 2020 has been restated for comparative purposes after the adoption of GASB Statement No.84, *Fiduciary Activities*.

The previous schedule is prepared from the College's Statement of Net Position, which is presented using an accrual basis of accounting, whereby assets are capitalized and depreciated. Total assets and deferred outflows increased by $22,178,397 or approximately 12.71% over the prior year primarily due to increased long-term investments and receipt of Higher Education Emergency Relief Funding (HEERF) associated with the pandemic.

The increase in total assets was offset by an increase in total liabilities and deferred inflows of $13,084,024 or 13.50%. The increase in total liabilities was largely due to increased pension related obligations.

The increase in net position of $9,094,373 or 11.72% over the year provides overwhelming evidence of the College's overall financial strength and economic well-being.

Net Position - End of Year	$ 86,675,207	$ 77,580,834	$ 9,094,373	11.72%

As shown above, the College experienced a substantial increase in its net position (or net assets) during fiscal year 2021. The change in net assets was largely attributed to increased non-operating revenues from Federal and State contracts and the Federal Higher Education Emergency Relief Funding (HEERF) associated with the pandemic.

Operating revenues declined due to a reclassification of HEERF funding. Operating expenses increased during the year primarily due to additional costs associated with the ongoing pandemic. These costs included, but were not limited to, increased instructional, information technology, and employee benefit costs. In spite of a decline in net operating income, the College's overall net position increased dramatically due to significant HEERF support and increased State funding.

The following is a multi-year graphical trend of operating expenses by function.

Operating Expenses by Function

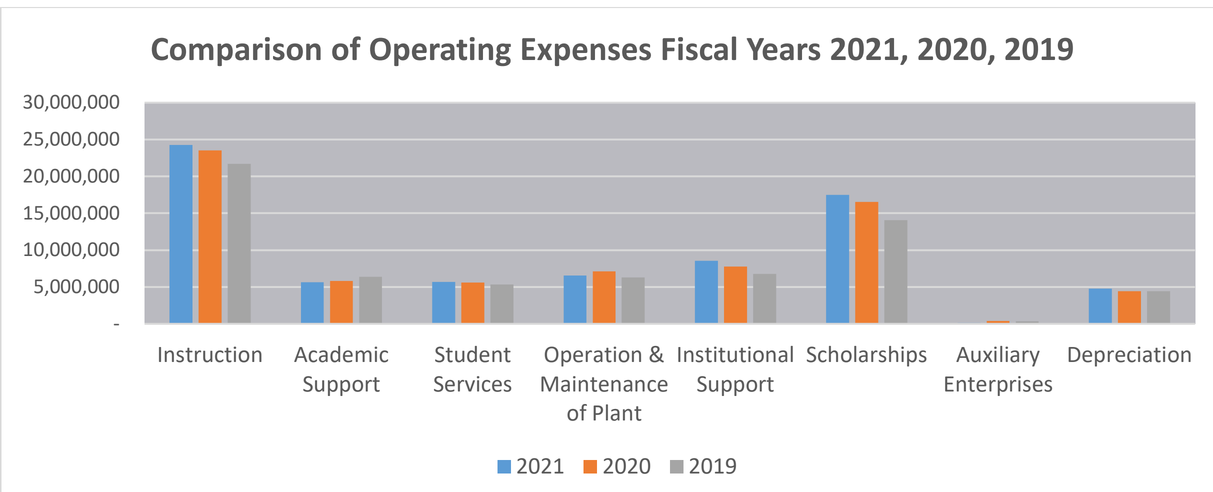
Total Operating Expenses	$ 73,143,800	$ 71,419,506	$ 1,724,294	2.41%

The following is a multi-year graphical trend of operating expense by function.



Operating expenses increased during fiscal year 2021 by $1,724,294 or 2.71%. This change was driven by several factors including an increase in information technology expenses to support virtual and remote learning and increased scholarships (student aid). The change in expenses was also due to increased depreciation associated with a new academic building at the College's Georgetown Campus and significant land improvements at the Grand Strand Campus.

Total Net Position	$ 86,675,207	$ 77,580,834	$ 9,094,373	11.72%

Net position (net assets) may serve over time as a useful indicator of an entity's financial position. In the case of the College, assets exceeded liabilities by $86,675,207, an increase of $9,094,373 or 11.72% over the prior year, thus providing overwhelming evidence of the financial strength and economic viability of the institution. The increase in net assets was primarily attributed to support from HEERF, collections from the local Educational Capital Improvement Sales and Use (Penny) Tax.

At June 30, 2021, less than 1% or $235,816 of the College's net position is restricted for revolving loan funds and by other grantor imposed restrictions.

Net Capital Assets	$ 87,096,904	$ 84,389,024	$ 2,707,880	3.21%

As of June 30, 2021, the College had $137,456,064 in capital assets, which represented a $6,700,454 or 5.12% increase over the prior fiscal year. The increase in capital assets was largely precipitated by the ongoing improvements made to academic and student support buildings and infrastructure on the College's Georgetown and Grand Strand Campuses.

The College continued progress on its facilities master plan during the year, completing existing and starting new capital projects. These capital projects are intended to improve and expand academic and instructional space; enhance administrative and support buildings; upgrade the institution's roads, sidewalks and parking facilities; and modernize the existing information technology infrastructure.

Cash Flows
For the Years Ended June 30,

		2021		2020
Cash Flows from Operating Activities	$	(26,628,829)	$	(26,483,127)
Cash Flows from Non-Capital Financing Activities	$	34,467,459	$	32,866,257
Cash Flows from Capital and Related Financing Activities	$	(1,476,718)	$	3,834,811
Cash Flows from Investing Activities	$	(22,605,158)	$	4,215,571
Net (Decrease)/Increase in Cash	$	(16,243,246)	$	14,433,512
Cash - Beginning of Year	$	39,249,566	$	24,816,054
Cash - End of Year	$	23,006,320	$	39,249,566

The College's cash position was decreased by approximately $16,243,246 or 4.13% during the year. The decrease in cash was attributed to the College purchasing long-term higher performing investment instruments such as U.S. Bonds and Treasuries. By using cash to acquire higher yielding instruments, the College is better positioned to optimize its total return on assets.

Capital Asset and Debt Administration

The College was able to substantially increase its net position during the year through relatively stable enrollment, ongoing cost reduction initiatives, and receipt of the local Education Capital Improvement Sales and Use (Penny) Tax. The College has no indebtedness.

Economic Factors

Over the past decade, the College has been forced to rely more heavily on tuition (enrollment) revenue to support its mission. Going forward, the College expects some flattening of enrollment growth due to national enrollment trends, economic impacts associated with the COVID-19 pandemic, increased federal restrictions on financial aid, and competition from private and four-year institutions. The future impact of enrollment increases or decreases however, cannot be measured with any precision.

In spite of these economic and market-related challenges, the College continues to provide overwhelming evidence of its fiscal strength and economic health as demonstrated by its growth in net assets, financial liquidity, and absence of debt. The College's financial health is further supported by relatively stable enrollment, ongoing cost reductions, and receipt of the local Penny Tax.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations: Horry - Georgetown Technical College (the "College"), a member institution of the South Carolina Technical College System, provides a range of educational programs to meet the needs of the adult population of Horry and Georgetown counties. Included in this range of programs are technical and occupational associate degree, diploma and certificate curricula that are consistent with the needs of employers in the College's service area. As an integral part of this mission, the College provides a program of continuing education designed to satisfy the occupational demands of employers through retraining and upgrading skills of individual employees. The College also provides a variety of developmental education programs, support services and offerings to assist students in meeting their personal and professional educational objectives.

Reporting Entity: The financial reporting entity, as defined by the Governmental Accounting Standards Board ("GASB") consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be incomplete. Accordingly, the financial statements include the accounts of Horry - Georgetown Technical College, as the primary government, and the accounts of Horry - Georgetown Technical College Foundation, Inc. (the "Foundation"), its component unit. The College is considered a discretely presented component unit of the State of South Carolina as required by GASB Statement No. 61. However, based on the nature and significance of the Foundations' relationship with the State of South Carolina, the Foundation is not a component unit of the State of South Carolina.

The Foundation is a legally separate, tax-exempt component unit of the College. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The 32 member board of the Foundation is self-perpetuating and consists of friends of the College. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon that the Foundation holds and invests are restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College. The Foundation is reported in separate financial statements because of the difference in its reporting model, as further described below.

The Foundation has adopted Accounting Standards Update (ASU) No. 2016-14, Not-for-Profit Entities (Topic 958) – *Presentation of Financial Statements of Not-for-Profit Entities*. This adoption resulted in reducing the net asset classification from three net asset classes to two net asset classes, providing qualitative disclosures about methods used to allocate costs among program and support functions, and adding additional qualitative disclosures regarding liquidity and cash management.

Financial Statements of the Foundation can be obtained by calling the Foundation at (843) 477-2112.

Financial Statements: The financial statement presentation for the College meets the requirements of Governmental Accounting Standards Board ("GASB") Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, and GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. The financial statement presentation provides a comprehensive, entity-wide perspective of the College's net position, revenues, expenses and changes in net position and cash flows that replaces the fund-group perspective previously required.

The College implemented the provisions of GASB Statement No. 84, *Fiduciary Activities*. The requirements of this Statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. Greater consistency and comparability enhances the value provided by the information reported in financial statements for assessing government accountability and stewardship. This change resulted in including the student activity fund fees as revenue in the financial statements, as well as, including student

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

activity fund expenditures as expenses in the financial statements. These were previously not reported as revenues and expenses. The College has also identified custodial funds as described in GASB Statement No. 84 *Fiduciary Activities* that are reported as assets in the financial statements and a related liability to beneficiaries. These custodial fees were funds that were held on behalf of the golf course department that the College does not maintain control over. GASB Statement No. 84 has been implemented retroactively by restating the June 30, 2020 financial statements.

Basis of Accounting: For financial reporting purposes, the College is considered a special purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. Student tuition and auxiliary enterprise fees are presented net of scholarships and fellowships applied to student accounts, while stipends and other payments made directly are presented as scholarship expenses. All significant intra-institutional transactions have been eliminated.

Cash and Cash Equivalents: For purposes of the statement of cash flows, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Funds invested through the State of South Carolina State Treasurer's Office are considered cash equivalents.

Investments: Deposits and investments for the College are governed by the South Carolina Code of Laws, Title 6, Chapter 5, "Investments of Funds by Political Subdivisions". The College has implemented GASB Statement No. 40, *Deposits and Investment Risk Disclosures - an amendment to GASB Statement No. 3*. This statement requires disclosures related to deposit risks, such as custodial credit risk, and investment risks, such as credit risk (including custodial credit risk and concentrations of credit risks) and interest rate risk. The College accounts for its investments at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Changes in unrealized gain (loss) on the carrying value of investments are reported as a component of investment income in the statement of revenues, expenses and changes in net position.

Accounts Receivable: Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. Accounts receivable also include amounts due from the Federal government, State and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts.

Capital Assets: Capital assets are recorded at cost at the date of acquisition or at acquisition value at the date of donation in the case of gifts. Acquisition value is the price that would be paid to acquire an asset with equivalent service capacity in an orderly market transaction at the acquisition date. The College follows capitalization guidelines established by the State of South Carolina. All land is capitalized, regardless of cost. Qualifying improvements that rest in or on the land itself are recorded as depreciable land improvements. Major additions and renovations and other improvements that add to the usable space, prepare existing buildings for new uses, or extend the useful life of an existing building are capitalized. The College capitalizes movable personal property with a unit value in excess of $5,000 and a useful life in excess of two years and depreciable land improvements, buildings and improvements, and intangible assets costing in excess of $100,000. Routine repairs and maintenance and library materials, except individual items costing in excess of $5,000, are charged to operating expenses in the year in which the expense was incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 50 years for buildings and improvements and land improvements and 2 to 25 years for machinery, equipment, and vehicles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Unearned Revenues and Deposits: Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

Deposits represent student fee refunds, and other miscellaneous deposits. Student deposits are recognized as revenue during the semester for which the fee is applicable and earned when the deposit is nonrefundable to the student under the forfeit terms of the agreement.

Deferred Outflows/Inflows of Resources: In addition to assets and liabilities, the statement of net position will sometime report a separate section for deferred outflows and deferred inflows of resources. These separate financial statement elements represent consumption or acquisition of net position that applies to a future period(s) and so will not be recognized as an outflow/inflow of resources (expense/revenue) until that time.

Pensions: For purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB): For purposes of measuring the College's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) and the South Carolina Long Term Disability Insurance Trust Fund (SCLTDITF) and additions to/deductions from the SCRHITF and the SCLTDITF net position have been determined on the same basis as they are reported by the SCRHITF and SCLTDITF Plan. For this purpose, the SCRHITF and the SCLTDITF recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Compensated Absences: Employee vacation pay expense is accrued at year-end for financial statement purposes. The liability and expense incurred are recorded at year-end as a component of current and long-term liabilities in the statement of net position and as a component of salary and benefit expenses in the statement of revenues, expenses, and changes in net position.

Net Position: The College's net position is classified as follows:

Net investment in capital assets: This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.

Restricted net position - expendable: Restricted expendable net position include resources in which the College is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Restricted net position - nonexpendable: Nonexpendable restricted net position consist of endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Unrestricted net position: Unrestricted net position represent resources derived from student tuition and fees, appropriations, and sales and services of educational departments and auxiliary enterprises. These resources are used for transactions relating to the educational and general operations of the College, and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty and staff.

The College policy for applying expenses that can use both restricted and unrestricted resources is to first apply the expense to restricted resources and then to unrestricted resources.

Nonexchange Transactions: Nonexchange transactions involving financial or capital resources are transactions in which the college either gives value to another party without directly receiving equal value in exchange or receives value from another party without directly giving equal value in exchange. The types of nonexchange transactions the college engages in include “Voluntary nonexchange transactions” (certain grants and donations), and “Imposed nonexchange revenue” (fines and penalties), and “Government-mandated nonexchange transactions.”

Voluntary nonexchange transactions usually involve eligibility requirements that must be met before transactions are recognized. The eligibility requirements can include one or more of the following:

a. The recipient has the characteristics specified by the provider.
b. Time requirements specified by the provider have been met.
c. The provider offers resources on a reimbursement basis and allowable costs have been incurred under the applicable program.
d. The provider’s offer of resources is contingent upon a specified action of the recipient and that action occurred.

Resources transmitted before the eligibility requirements are met are reported as advances by the provider and as unearned revenues by recipients.

Assets from imposed nonexchange revenues are recognized when an enforceable legal claim to the assets arise or when the resources are received.

Capitalized Interest: The College capitalizes as a component of construction in progress interest cost in excess of earnings on debt associated with capital projects. Therefore, capital asset values do include such interest costs. During the fiscal year ending June 30, 2021, no interest cost was capitalized.

Income Taxes: The College is exempt from income taxes under the Internal Revenue Code.

Classification of Revenues: The College has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues: Operating revenues generally result from exchange transactions to provide goods or services related to the College’s principal ongoing operations. These revenues include (1) student tuition and fees received in exchange for providing educational services and other related services to students; (2) receipts for scholarships where the provider has identified the student recipients; (3) fees received from organizations and individuals in exchange for miscellaneous goods and services provided by the College; and (4) grants and contracts that are essentially the same as contracts for services that finance programs the College would not otherwise undertake.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Nonoperating revenues: Nonoperating revenues include activities that have the characteristics of nonexchange transactions. These revenues include gifts and contributions, appropriations, investment income, and any grants and contracts that are not classified as operating revenue or restricted by the grantor to be used exclusively for capital purposes.

Sales and Services of Educational and Other Activities: Revenues from sales and services of educational and other activities generally consist of amounts received from instructional, research, and public service activities that incidentally create goods and services which may be sold to students, faculty, staff, and the general public. The College receives such revenues primarily from the following programs: Dental Hygiene, Massage Therapy, Food Service, and Culinary Arts.

Auxiliary Enterprises and Internal Service Activities: Auxiliary enterprise revenues primarily represent revenues generated by bookstore commissions and cafeteria and vending services. Revenues of internal service and auxiliary enterprise activities and the related expenditures of college departments have been eliminated.

Restricted Cash: The College has funds which were donated by private citizens to be used as short-term loans for students having financial difficulties. The loans are short-term and payable within 90 days. The restricted cash amount equals funds available at June 30, 2021 for such loans.

Component Unit: The Foundation maintains its accounts in accordance with the principles and practices of fund accounting. Fund Accounting is the procedure by which resources for various purposes are classified for accounting purposes in accordance with activities or objectives specified by donors. Accordingly, net assets and changes therein are classified as follows:

Net Assets Without Donor Restrictions: Net assets that are not subject to donor-imposed stipulations.

Net Assets With Donor Restrictions: Net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and/or the passage of time. Net assets restricted by the actions of the Foundation and/or the passage of time are temporary in nature. Other donor imposed stipulations that are permanent in nature, require that principal be maintained in perpetuity by the Foundation.

Revenues are reported as increases in unrestricted net assets classification unless use of the related assets is limited by donor-imposed restrictions. Contributions, including unconditional promises to give, are recognized as revenue in the period received. Conditional promises to give are not recognized as revenue until the conditions on which they depend are substantially met. Contributions for in-kind gifts from outside sources are not recorded in the Foundation's financial records, but are accounted for and acknowledged separately.

Expenses are reported as decreases in unrestricted net assets as appropriate. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law.

Investments are reported at fair value based upon quoted market prices.

DEPOSITS

State law requires that a bank or savings and loan association receiving State funds must secure the deposits by deposit insurance, surety bonds, collateral securities, or letters of credit to protect the State against any loss.

NOTE 2 - DEPOSITS AND INVESTMENTS (continued)

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the College will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party.

The College's bank balances on deposit were $13,382,097 at June 30, 2021. Of these, $1,581,305 were exposed to custodial credit risk as uninsured; however, were collateralized with securities held by the pledging institution in the College's name. The carrying value of these deposits was $11,688,782. Restricted cash includes $194,755 held for student loans. The cash balance at brokerage firms are insured up to $250,000 by the Securities Investor Protection Corporation (SIPC) with additional insurance provided by the brokerage firm through an excess SIPC policy.

INVESTMENTS

The College is authorized, by the South Carolina Code of Laws, Title 6, Chapter 5, to invest in obligations of the United States and its agencies, obligations of the State of South Carolina and its political subdivisions, collateralized or federally insured certificates of deposit, and collateralized repurchase agreements.

The College's investments at June 30, 2021, that are not with the State Treasurer's Office are presented below. All investments are presented by investment type and by maturity.

NOTE 2 - DEPOSITS AND INVESTMENTS (continued)

Horry – Georgetown Technical College holds investments that are measured at fair value on a recurring basis. The College categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

		Fair Value Measurements Using		
	June 30, 2021	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Debt Securities

Total Debt Securities	$ 64,268,516	$ 11,549,339	$ 52,719,177	$ 0

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Debt and equity securities in Level 2 are valued at quoted prices in markets that are not active or observable inputs over the full term of the asset or liability.

Debt and equity securities classified as Level 2 are valued using the following approaches:

- U.S. Treasuries, U.S. Agencies are valued at quoted prices for identical securities in markets that are not active.
- Corporate and Municipal Bonds are quoted prices for similar securities in active markets.
- Money Market Mutual Funds are published fair value per share (unit) for each fund.

The College did not have any Level 3 investments as of June 30, 2021.

Deposits - Discretely Presented Component Unit

Cash and cash equivalents consist of amounts on deposit, including interest-bearing deposits. The balances on deposit were insured up to $250,000 by the Federal Deposit Insurance Corporation (FDIC). The balances at the brokerage firm are insured up to $500,000 by the Securities Investor Protection Corporation (SIPC) with additional insurance provided by the brokerage firm through an excess SIPC policy.

Custodial Credit Risk
Custodial credit risk for investments is the risk that, in the event of a failure of the counter-party to a transaction, the College will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. The College does not have a formal investment policy that addresses custodial credit risk. Of the College's $15,719,031 investment in repurchase agreements, $15,719,031 of the underlying securities are held by the investments counter-party in the College's Name.

Interest Rate Risk
Interest Rate Risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment.

The College does not have a formal investment policy that limits maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk
Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The College does not have an investment policy regarding credit risk.

The College's rated debt investments as of June 30, 2021, were rated by Standard & Poor's and are listed below using the Standard & Poor's rating scale.

NOTE 7 - PENSION AND RETIREMENT PLAN

Plan Descriptions

The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.

The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts and individuals first elected to the S.C. General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party service providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the four third party service providers. For this reason, State ORP assets are not part of the retirement systems' trust funds for financial statement purposes.

The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits to police officers and firefighters. PORS also covers peace officers, coroners, probate judges and magistrates.

The South Carolina Public Employee Benefit Authority (PEBA), which was created July 1, 2012, administers the various retirement systems and retirement programs managed by its Retirement Division. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as co-trustee and co-fiduciary of the systems and the trust funds. By law, the Budget and Control Board, which consists of five elected officials, also reviews certain PEBA Board decisions regarding the funding of the South Carolina Retirement Systems (Systems) and serves as a co-trustee of the Systems in conducting that review.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, PO Box 11960, Columbia, SC 29211-1960. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

SCRS - Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

State ORP – As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program (State ORP), which is a defined contribution plan. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the investment providers. Employee and Employer contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employers to the member's account with investment providers for the employee contribution (9 percent) and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution (10.41 percent) and an incidental death benefit contribution (.15 percent), if applicable, which is retained by SCRS.

PORS – To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least $2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Benefits

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation. A brief summary of the benefit terms for each system is presented below.

SCRS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable services equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active or retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

PORS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits area also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS and PORS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statue. Legislation in 2017 increased, but also established a ceiling for SCRS and PORS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS and 9.75 percent for PORS. The legislation also increased employer contribution rates beginning July 1, 2017 for both SCRS and PORS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year in accordance with state statue. However, the General Assembly postponed the one percent increase in the SCRS and PORS employer contribution rates that was scheduled to go into effect beginning July 1, 2020. If the scheduled contributions are not sufficient to meet the funding periods set in state statue, the board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS and PORS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS and PORS contribution rates until the funded ratio is at least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, them the board, effective on the following July 1, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July 1, and annually thereafter as necessary, the board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

- Required employee contribution rates[1] are as follows:

	2021	2020

[1] Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.
[2] Of this employer contribution, 5% of earnable compensation must be remitted by the employer directly to the ORP vendor to be allocated to the member's account with the remainder of the employer contribution remitted to SCRS.

Employer contribution rates increased by more than one percentage point for the 2020-2021 fiscal year; therefore, in accordance with the South Carolina 2020-2021 Appropriation Act, Section 117.151 State funds were appropriated to PEBA for the Retirement Trust Funds. PEBA issued credit invoices to each employer for one percent of employer contributions based on its share of the appropriated funds. The College's share of appropriated funds were $196,119 and will be reported as revenues from a contribution made by a non-employer contributing entity and a reduction of net pension liability as of June 30, 2021 measurement date. The College reported $196,119 as non-employer contribution revenue for the 2020 fiscal year.

Contributions to the pension plan for the years ended June 30, 2021 and June 30, 2020 are as follows:

		2021		2020

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the College reported $48,761,930 and $189,181 for its proportionate shares of the net pension liabilities of SCRS and PORS, respectively. The net pension liability of each defined benefit pension plan was determined based on the July 1, 2019 actuarial valuations, using membership data as of July 1, 2019, projected forward to June 30, 2020, and financial information of the pension trust funds as of June 30, 2020, using generally accepted actuarial procedures. The College's proportion of the net pension liability was based on the College's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2021, the College SCRS proportion was .190836 percent measured as of June 30, 2020. The College's PORS proportion of the net pension liability at June 30, 2020 was .005705 percent. The College's proportionate share for the fiscal year ending June 30, 2020 as of the measurement date of June 30, 2019 for the SCRS was .195324 percent and .006421 percent for the PORS.

Pension Expense

Additional items included in Total Employer Pension Expense in the Schedules of Pension Amounts by Employer are the current period amortized portions of deferred outflows and/or inflows of resources related to changes in employers' proportionate share of the collective net pension liability and differences between actual employer contributions and proportionate share of total plan employer contributions. These two deferrals are specific to cost-sharing multiple-employer defined benefit pension plans as discussed in paragraphs 54 and 55 of GASB 68.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

At June 30, 2021, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		SCRS		PORS
Deferred Outflows of Resources:				
Difference between expected and actual experience	$	562,648	$	4,020
Assumption Changes		59,741		2,309
Net difference between projected and actual earnings		3,586,849		19,372
Deferred amounts from changes in proportionate share and difference between employer contributions and proportionate share of total plan employer contributions		289,264		76,162
College contributions subsequent to measurement date		3,149,245		14,393
	$	7,647,747	$	116,256

		SCRS		PORS
Deferred Inflows of Resources:				
Net difference between expected and actual experience	$	184,390	$	833
Deferred amounts from changes in proportionate share and difference between employer contributions and proportionate share of total plan employer contributions		751,119		33,701
	$	935,509	$	34,534

College contributions subsequent of the measurement date of $3,149,245 and $14,393 reported as deferred outflow of resources for the SCRS and PORS, will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:		SCRS		PORS
2022	$	635,989	$	21,133
2023		1,007,928		33,913
2024		1,003,791		8,087
2025		915,285		4,196
Thereafter		0		0
	$	3,562,993	$	67,329

Payable to Pension Plan

At June 30, 2021, the College had $252,120 in outstanding payables to the plans for legally required contributions. This amount is reported in the statement of net position with withholdings and benefits payable.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

Actuarial Assumptions and Methods

Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2019 for first use in the July 1, 2021 actuarial valuation.

The June 30, 2020, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by our consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2019. The total pension liability was rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2020, using generally accepted actuarial principles.

The following table provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2020.

	SCRS	PORS
Actuarial cost method	Entry age normal	Entry age normal
Investment rate of return[1]	7.25%	7.25%
Projected salary increases	3.0% to 12.5% (varies by service)[1]	3.5% to 9.5% (varies by service)[1]
Benefit adjustments	lesser of 1% or $500 annually	lesser of 1% or $500 annually
[1] *includes inflation at 2.25%*		

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (2016 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvements in mortality using published Scale AA projected from the year 2016.

Assumptions used in the determination of the June 30, 2020, TPL are as follows:

Former Job Class	Males	Females
Educators	2016 PRSC Males multiplied by 92%	2016 PRSC Females multiplied by 98%
General Employees and Members of the General Assembly	2016 PRSC Males multiplied by 100%	2016 PRSC Females multiplied by 111%
Public Safety and Firefighters	2016 PRSC Males multiplied by 125%	2016 PRSC Females multiplied by 111%

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2020, for SCRS and PORS are presented below.

System	Total Pension Liability	Plan Fiduciary Net Position	Employers' Net Position Liability (Asset)	Plan Fiduciary Net Position as a Percentage of the Total Pension Liability
SCRS	$ 51,844,187,763	$ 26,292,418,682	$ 25,551,769,081	50.7%
PORS	8,046,386,629	4,730,174,642	3,316,211,987	58.8%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the System's financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Discount Rate

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon the 20 year capital market assumptions. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2020 fiscal year. The long-term expected rate of return is produced by weighing the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table following. For actuarial purposes, the 7.25 percent assumed annual investment rate of return used in the calculation of the total pension liability includes a 5.00 percent real rate of return and a 2.25 percent inflation component.

Additional Financial and Actuarial Information

Information contained in these Notes to the Schedules of Employer and Nonemployer Allocation and Schedules of Pension Amounts by Employer (Schedules) was compiled from the Systems' audited financial statements for the fiscal year ended June 30, 2020, and the accounting valuation report as of June 30, 2020. Additional financial information supporting the preparation of the Schedules (including the unmodified audit opinion on the financial statements and required supplementary information) is available in the Systems' CAFR.

NOTE 7 - PENSION AND RETIREMENT PLAN (continued)

Deferred Retirement Option Plans

The Teacher and Employee Retention Incentive (TERI) program, established by State law, became effective January 1, 2001. The program is a deferred retirement option available to SCRS members eligible for services retirement. Upon entering the TERI program, a member's status changes from active to retired. A TERI participant agrees to continue employment with an employer participating in the system for a specified period, not to exceed five years. TERI participants retain the same status and employment rights they held upon entering the program but are not considered active employees for purposes of the disability retirement programs. A TERI retiree's monthly benefits are accrued and remain in the SCRS trust account during the TERI participation period, but no interest is accrued or paid thereon. Upon termination of employment or at the end of the TERI participation period (whichever is earlier), a retiree may roll over some or all of the accumulated TERI balance into a qualified, tax-sheltered retirement plan and/or receive a lump-sum distribution.

Optional Retirement Program

As an alternative to membership in SCRS, certain State, public school, and higher education employees and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program. Participants in the State ORP direct the investment of their funds into a plan administered by one of four investment providers and are governed by the terms of the contracts that those providers issue.

Under State law, College contributions to the ORP are at the same rates as of the SCRS (see Subsection c, Funding Policies). A direct remittance is required from the employers to the investment providers for the employee contribution (9.00%) and a portion of the employer contribution (5.00%), which is immediately vested to the employee. A direct remittance is also required to the SCRS for a portion of the employer contribution (10.41%) and a group life contribution (.015%), which is retained by the SCRS. The activity for the College participation in the State ORP is as follows:

Covered payroll………………………………………..	$ 5,412,619
Employee contributions to providers………………….	487,136
Employer contributions to providers…………………..	270,631
Payments to SCRS…………………………………….	571,572

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The Other Post-Employment Benefits Trust Funds (OPEB Trusts), collectively refers to the South Carolina Retiree Health Insurance Trust Fund (SCRHITF) and the South Carolina Long-Term Disability Insurance Trust Fund (SCLTDITF), were established by the State of South Carolina as Act 195, which became effective in May, 2008. The SCRHITF was created to fund and account for the employer costs of the State's retiree health and dental plans. The SCLTDITF was created to fund and account for the employer costs of the State's Basic Long-Term Disability Income Benefit Plan.

In accordance with Act 195, the OPEB Trusts are administered by the PEBA – Insurance Benefits and the State Treasurer is the custodian of the funds held in trust. The Board of Directors of PEBA has been designated as the Trustee.

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

The OPEB Trusts are cost-sharing multiple-employer defined benefit OPEB plans. Article 5 of the State Code of Laws defines the two plans and authorizes the Trustee to at any time adjust the plans, including its benefits and contributions, as necessary to insure the fiscal stability of the plans. In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents.

Benefits

The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies, and public school districts. The SCRHITF provides health and dental insurance benefits to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008 and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

The SCLTDITF is a long-term disability plan that covers employees of the State of South Carolina, including all agencies and public school districts and all participating local governmental entities. The SCLTDITF provides disability payments to eligible employees that have been approved for disability.

Contributions and Funding Policies

Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the postemployment and long-term disability benefits to be funded through non-employer and employer contributions for active employees and retirees to the PEBA – Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA – Insurance Benefits reserves.

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2021 was 6.25 percent. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF also include the implicit subsidy, or age-related subsidy inherent in the healthcare premiums structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer's active employees. For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer's contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA – Insurance Benefits' reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income. The College paid $1,457,317 applicable to be surcharge included with employer contributions for retirement benefits for the year ended June 30, 2021. The College recorded non-employer contributions of $333,602 to the SCRHITF for the year ended June 30, 2021.

The SCLTDITF is funded through employer contributions for active employees that elect health insurance coverage. For this group of active employees, PEBA-Insurance Benefits bills and collects premiums charged to State agencies, public school districts and other participating local governments. The monthly premium per active employee was $3.22 for the fiscal year ended June 30, 2021. The SCLTDITF premium is billed monthly by PEBA – Insurance Benefits and transferred monthly to the SCLTDITF. It is also funded through investment income. The allocation percentage of the OPEB amounts are calculated differently for each OPEB Trust. For the SCRHITF, the allocation percentage is based on the covered payroll surcharge contribution for each employer. The College recorded employer

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

contribution expense applicable for these benefits of $8,661 for June 30, 2021 and recorded $0 as non-employer contributions for the SCLTDITF for the year ended June 30, 2021.

In accordance with part (b) of paragraph 69 of GASB Statement No. 75, participating employers should recognize revenue in an amount equal to the employer's proportionate share of the change in the collective net OPEB liability arising from contributions to the OPEB plan during the measurement period from non-employer contributing entities for purposes other than the separate financing of specific liabilities to the OPEB plan. Therefore, employers should classify this revenue in the same manner as it classifies grants from other entities.

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trusts, and additions to and deductions from the OPEB Trusts fiduciary net position have been determined on the same basis as they were reported by the OPEB Trusts. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value.

PEBA – Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Funds. This information is publicly available through the PEBA – Insurance Benefits' link on PEBA's website at www.peba.sc.gov or a copy may be obtained by submitting a request to PEBA – Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, OPEB Trust fund financial information is also included in the comprehensive annual financial report of the state.

Deferred Outflows of Resources and Deferred Inflows of Resources related to Post-Employment Benefits Other Than Pensions

At June 30, 2021, Horry – Georgetown Technical College reported an OPEB (Other Post-Employment Benefits) liability of $45,155,693 for Retiree Health Insurance. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of the June 30, 2019 valuation date. At June 30, 2020, the College's proportion of the OPEB Health Liability was .255520% and the College's proportion of the OPEB Health Liability at June 30, 2021 was .250150%.

For the year ended June 30, 2021, Horry – Georgetown Technical College recognized OPEB Health expense of $3,426,625 for OPEB Health. At June 30, 2021, the College reported deferred outflows of resources and deferred inflows of resources related to Post-Employment Benefits Other Than Pensions (OPEB) for South Carolina Retiree Health Insurance Trust Fund (SCRHITF) from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Liability Experience	$ 1,291,494	$ 1,028,357
Assumption Changes	6,719,731	1,798,331
Investment Experience	60,683	166,006
Outstanding balance between Horry – Georgetown Technical College contributions and proportionate share of plan contributions	534,501	715,087
Horry – Georgetown Technical College contributions subsequent to the measurement date	1,457,317	0
Total	$ 10,063,726	$ 3,707,781

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

$1,457,317 reported as deferred outflows of resources related to OPEB resulting from Horry – Georgetown Technical College OPEB Health Insurance contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows or resources and deferred inflows of resources related to OPEB Health will be recognized in OPEB expense as follows:

Year ended June 30:	
2022	637,186
2023	622,631
2024	599,567
2025	999,784
2026	1,101,450
Thereafter	938,010
	4,898,628

At June 30, 2021, Horry – Georgetown Technical College reported an OPEB liability of $515 for Long-Term Disability Insurance. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019. At June 30, 2021, the College's proportion of the OPEB Long-Term Disability Liability was .169774% and the College's proportion of OPEB Long-Term Disability Liability at June 30, 2020 was .171675%.

For the year ended June 30, 2021, Horry – Georgetown Technical College recognized OPEB Long-Term Disability expense of $13,794 for OPEB Long-Term Disability. At June 30, 2021, the College reported deferred outflows of resources and deferred inflows of resources related to Post-Employment Benefits Other Than Pensions (OPEB) for South Carolina Retiree Health Insurance Trust Fund (SCRHITF) from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Liability Experience	$ 0	$ 2,136
Assumption Changes	2,157	257
Investment Experience	1,324	5,613
Outstanding balance between Horry – Georgetown Technical College contributions and proportionate share of plan contributions	0	608
Horry – Georgetown Technical College contributions subsequent to the measurement date	8,661	0
Total	$ 12,142	$ 8,614

$8,661 reported as deferred outflows of resources related to OPEB resulting from Horry – Georgetown Technical College OPEB Long-Term Disability Insurance contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows or resources and deferred inflows of resources related to OPEB Long-Term Disability will be recognized in OPEB expense as follows:

Year ended June 30:	
2022	(815)
2023	(1,186)
2024	(1,662)
2025	(1,142)
2026	(129)
Thereafter	(199)

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

Payable to OPEB Plans

As of June 30, 2021, the College had $109,969 in outstanding payables for the SCRHITF and $0 in outstanding payables to the SCLTDITF at year end. These amounts are reported in the statement of net position salaries and benefits payable.

Actuarial Assumptions and Methods

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Projections of benefits for financial reporting purposes are based on the substantive plans (as understood by the employer and plan participants) and include the types of benefits provided at the time the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The following table provides a summary of the actuarial assumptions and methods used in the June 30, 2019 actuarial valuation for SCRHITF:

Actuarial Assumptions:	**SCRHITF**
Valuation Date	June 30, 2019
Actuarial Cost Method	Individual Entry – Age Normal
Inflation	2.25%
Investment Rate of Return	2.75%, net of OPEB Plan investment expense; including inflation
Single Discount Rate	2.45% as of June 30, 2020
Demographic Assumptions	Based on the experience study performed for the South Carolina Retirement Systems for the 5-year period ending June 30, 2015
Mortality	For healthy retirees, the 2016 Public Retirees of South Carolina Mortality Table for Males and the 2016 Public Retirees of South Carolina Mortality Table for Females are used with fully generational mortality projections based on Scale AA from the year 2016. Multipliers are applied to the base tables based on gender and employment type.
Healthcare Trend Rate	Initial trend starting at 6.40% and gradually decreasing to an ultimate trend rate of 4.00% over a period of 15 years
Retiree Participation	79% for retirees who are eligible for funded premiums. 59% participation for retirees who are eligible for Partial Funded Premiums. 20% participation for retirees who are eligible for Non-Funded Premiums.
Notes	The discount rate changed from 3.13% as of June 30, 2019 to 2.45% as of June 30, 2020; updates were also made to the healthcare trend rate assumption, including an adjustment to reflect the repeal of the "Cadillac Tax".

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

The following table provides a summary of the actuarial assumptions and methods used in the June 30, 2019 actuarial valuation for SCLTDITF:

Actuarial Assumptions:	**SCLTDITF**
Valuation Date	June 30, 2019
Actuarial cost method	Individual Entry – Age Normal
Inflation	2.25%
Investment Rate of Return	3.00%, net of Plan investment expense; including inflation
Single Discount Rate	2.83% as of June 30, 2020
Salary, Termination, and Retirement Rates	Based on the experience study performed for the South Carolina Retirement Systems for the 5-year period ending June 30, 2015
Disability Incidence	The rates used in the valuation are based on the rates developed for the South Carolina Retirement Systems pension plans
Disability Recovery	For participants in payment, 1987 CGDT Group Disability; for active employees, 60% were assumed to recover after the first year and 92% were assumed to recover after the first two years
Offsets	40% are assumed to be eligible for Social Security benefits; assumed percentage who will be eligible for a pension plan offset varies based on employee group
Expenses	Third party administrative expenses were included in the benefit projections
Notes	The discount rate changed from 3.04% as of June 30, 2019 to 2.83% as of June 30, 2020

Roll Forward Disclosures

The actuarial valuations were performed as of June 30, 2019. Update procedures were used to roll forward the total OPEB liabilities to June 30, 2020.

Net OPEB Liability

The Net OPEB Liability (NOL) is calculated separately for each OPEB Trust Fund and represents that particular Trust's Total OPEB Liability (TOL) determined in accordance with GASB Statement No. 74 less that Trust's fiduciary net position. The allocation of each employer's proportionate share of the collective Net OPEB Liability and collective OPEB expense was determined using the employer's payroll-related contributions over the measurement period. This method is expected to be reflective of the employer's long-term contribution effort as well as be transparent to individual employers and their external auditors.

The following table represents the components of the net OPEB liability as of June 30, 2020:

OPEB Trust	Total OPEB Liability	Plan Fiduciary Net Position	Employers' Net OPEB Liability (Asset)	Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability
SCRHITF	$ 19,703,745,672	$ 1,652,299,185	$ 18,051,446,487	8.39%
SCLTDITF	42,782,316	42,479,106	303,210	99.29%

NOTE 8 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (continued)

The TOL is calculated by the Trusts' actuary, and each Trust's fiduciary net position is reported in the Trust's financial statements. The NOL is disclosed in accordance with the requirements of GASB Statement No. 74 in the Trusts' notes to the financial statements and required supplementary information. Liability calculations performed by the Trusts' actuary for the purpose of satisfying the requirements of GASB Statements No. 74 and 75 and are not applicable for the other purposes, such as determining the Trusts' funding requirements.

Single Discount Rate

The Single Discount Rate of 2.45% was used to measure the total OPEB liability for the SCRHITF. The accounting policy for this plan is to set the Single Discount Rate equal to the prevailing municipal bond rate. Due to the plan's investment and funding policies, the difference between a blended discount rate and the municipal bond rate would be less than several basis points (several hundredths of one percent).

A Single Discount Rate of 2.83% was used to measure the total OPEB liability for the SCLTDITF. This Single Discount Rate was based on an expected rate of return on plan investments of 3.00% and a municipal bond rate 2.45%. The projection of cash flows to determine this Single Discount Rate assumed that employer contributions will remain $38.64 per year for each covered active employee. Based on these assumptions, the plan's Fiduciary Net Position and future contributions were sufficient to finance the benefit payments through the year 2041. As a result, the long-term expected rate of return on plan investments was applied to project benefit payments through the year 2041, and the municipal bond rate was applied to all benefit payments after that date.

Long-Term Expected Rate of Return

The long-term expected rate of return represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following tables:

South Carolina Retiree Health Insurance Trust Fund

Asset Class	Target Asset Allocation	Expected Arithmetic Real Rate of Return	Allocation-Weighted Long-Term Expected Real Rate of Return
U.S. Domestic Fixed Income	80.00%	0.60%	0.48%

Sensitivity Analysis

The following table presents the College's proportionate share of the SCRHITF net other postemployment benefits (OPEB) liability calculated using the discount rate of 2.45 percent, as well as what the College's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.45 percent) or 1 percentage point higher (3.45 percent) than the current rate:

Sensitivity of the SCRHITF Net OPEB Liability to Changes in the Discount Rate

1.00% Decrease (1.45%)	Current Discount Rate (2.45%)	1.00% Increase (3.45%)
$53,879,806	$45,155,693	$38,184,475

Regarding the sensitivity of the SCRHITF's net OPEB liability to changes in the healthcare cost trend rates, the following table presents the plan's net OPEB liability, calculated using the assumed trend rates as well as what the plan's net OPEB liability would be if it were calculated using a trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

Sensitivity of the SCRHITF Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

1.00% Decrease	Current Healthcare Cost Trend Rate	1.00% Increase
$36,549,200	$45,155,693	$56,458,497

The following table presents the College's proportionate share of the SCLTDITF net OPEB liability calculated using the discount rate of 2.83 percent, as well as what the College's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.83 percent) or 1 percentage point higher (3.83 percent) than the current rate:

Sensitivity of the SCLTDITF Net OPEB Liability to Changes in the Discount Rate

1.00% Decrease (1.83%)	Current Discount Rate (2.83%)	1.00% Increase (3.83%)
$3,033	$515	$1,986

NOTE 9 - CONTINGENCIES, LITIGATION, AND PROJECT COMMITMENTS

Like any entity, the College may be subject to various litigations in the normal course of business. However, as of the audit date, the College is not involved in any such litigation. The College also maintains appropriate insurance coverage to offset any significant financial losses associated with legal liabilities. It should be noted that the College participates in certain Federal grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grant. Management believes disallowances, if any, will not be material.

As of June 30, 2021 the outstanding project commitments were as follows:

Project	Expenditures To Date	Estimated Total Project	Estimated Completion Date
Grand Strand Building 100, 200 and 300 Exterior and Land Improvements	$ 6,741,862	$ 8,400,000	Fall 2021
Georgetown Exterior	49,232	400,000	Fall 2021
Grand Strand Irrigation & Landscaping	153,877	850,000	Fall 2021
	$ 6,944,971	$ 9,650,000	

Other than the information outlined and discussed above, the College's management is aware of no other contingencies, litigations or other financial or legal commitments.

NOTE 10 - LEASE OBLIGATIONS

Contingent Rentals
Contingent rentals are defined, for purposes of this audit report, as rental agreements that can be cancelled by the College at any point with no further financial obligation. The College currently has two types of contingent rentals specifically covering five automobiles and office copiers. Details of those contingent rentals are as follows:

Rental Agreement	Year	Expended for Contingent Rentals
Automobiles	2020	$ 4,207
	2021	$ 1,038
Copiers	2020	$ 37,641
	2021	$ 34,135

Operating Leases
The College has five operating leases as of June 30, 2021 and June 30, 2020. The operating leases payments for equipment rental and facility rent made for 2021 and 2020 are as follows:

Rental Agreement	Year	Expended for Operating Leases
Equipment	2020	$ 121,670
	2021	$ 120,562

Future operating lease payments are as follows:

Rental Agreement	Year	Future Operating Lease Payments
Equipment	2022	$ 52,803
	2023	$ 29,622

NOTE 11 - RELATED PARTIES

Certain separately chartered legal entities exist, whose activities are related to those of the College, primarily to provide financial assistance and other support to the College and its educational programs. Financial statements for these entities are audited by independent auditors and retained by them. They include the Horry - Georgetown Technical College Foundation, Inc.

Management reviewed its relationship with the Foundation under the existing guidance of GASB Statement No. 14, as amended by GASB Statement No. 39 as amended by GASB Statement No. 61. Because of the nature and significance of its relationship with the College, the Foundation is considered a component unit of the College.

Following is a more detailed discussion of this entity and a summary of significant transactions (if any) between this entity and the College for the year ended June 30, 2021.

The Horry - Georgetown Technical College Foundation, Inc.

The Foundation is a separately chartered corporation organized exclusively to receive and manage private funds for the exclusive benefit and support of the College. The Foundation's activities are governed by its Board of Directors who are not members of the College's Board of Directors.

The College recorded non-governmental gift receipts of $272,925 from the Foundation in nonoperating revenues for the fiscal year ended June 30, 2021. These funds were used primarily to support the College by way of program development, construction projects, and program support. The Foundation reimburses the College for any purchases made by the College on behalf of the Foundation. The College provides office space and support services to the Foundation. The value of this office space and support services was approximately $3,600 for the year ended June 30, 2021.

The Foundation's assets as of June 30, 2021 were $17,275,894. As of June 30, 2021 the Foundation had $1,146,700 in receivables, primarily due from donors (via pledges) and $68,108 in outstanding liabilities primarily due to the College, for the Speir expansion. The Foundation also had a SBA Payroll Protection Loan balance of $122,894 at year end.

NOTE 12 - RISK MANAGEMENT

The College is exposed to various risks of loss and maintains State or commercial insurance coverage for each of those risks. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. Settlement claims have not exceeded this coverage in any of the past three years.

The State of South Carolina believes it is more economical to manage certain risks internally and set aside assets for claim settlement. Several State funds accumulate assets and the State itself assumes substantially all the risk for the following claims of covered employees:

Unemployment compensation benefits
Worker's compensation benefits for job-related illnesses or injuries
Health and dental insurance benefits
Long-term disability and group-life insurance benefits

Employees elect health insurance coverage through either a health maintenance organization or through the State's self-insured plan.

NOTE 12 - RISK MANAGEMENT (continued)

The College and other entities pay premiums to the State's Insurance Reserve Fund (IRF), which issues policies, accumulates assets to cover the risk of loss, and pays claims incurred for covered losses relating to the following activities:

Theft, damage to, or destruction of assets
Real property, its contents, and other equipment
Motor vehicles and watercrafts
Torts
Natural disasters

The IRF is a self-insurer and purchases reinsurance to obtain certain services and to limit losses in certain areas. The IRF's rates are determined actuarially.

The College obtains coverage through a commercial insurer for employee fidelity bond insurance for all employees for losses arising from theft or misappropriation.

NOTE 13 - NATIONAL FEDERAL DIRECT SUBSIDIZED AND UNSUBSIDIZED STAFFORD LOANS

The College participates in the National Federal Direct Subsidized and Unsubsidized Stafford Loan Program, which allows the College to disburse federal loans to students which are administered by the U.S. Department of Education. The loan activity is not reported in the accompanying financial statements because the responsibility for administration and collection passes to the U.S. Department of Education after the loans are disbursed. The College made loan disbursements of $13,586,782 under this program during the fiscal year 2021.

NOTE 14 – CUSTODIAL FUNDS

The College accounts for the GCSAA account as a custodial fund. This organization exists for the benefit of the golf course department. The department raises the funds and disburses the funds raised for charitable purposes. The College does not have any administrative control over these funds. The assets are reported in the financial statements along with a liability for funds held for others.

The following is a summary of the changes in the Student Activity Fund:

	June 30, 2020 Balance	Receipts	Disbursements	June 30, 2021 Balance
GCSAA	$19,364	$2,000	$0	$21,364
Total	$19,364	$2,000	$0	$21,364

NOTE 15 - LONG-TERM LIABILITIES

Horry – Georgetown Technical College entered into a capital lease agreement with Presidio for equipment. Future minimum lease obligations and net present value of these minimum lease payments as of June 30, 2021, are as follows:

Capital Lease Repayment		
	2022	$ 9,682
	2023	9,682
	2024	9,682
	2025	$ 4,838
Total Minimum Lease Payments		33,884
Less Amounts Representing Interest		(3,912)
Present Value		$ 29,972

NOTE 15 - LONG-TERM LIABILITIES (continued)

Long-term liabilities activity for the year ended June 30, 2021 was as follows:

	Balance June 30, 2020	Additions	Reductions	Balance June 30, 2021	Due within one year
Capital Lease	$ 37,273	$ 0	$ 7,301	$ 29,972	$ 7,829
Compensated Absences Payable	1,868,458	162,450	94,159	1,936,749	8,734
	$ 1,905,731	$ 162,450	$ 101,460	$ 1,966,721	$ 16,563

NOTE 16 - SALES/PURCHASES WITH OTHER SC HIGHER EDUCATION INSTITUTIONS

The College had significant financial transactions with other South Carolina public institutions of higher education during the fiscal year. The College provided goods and/or services to other South Carolina higher education institutions for a fee during the fiscal year ending June 30, 2021, as listed below:

Institution	Amount
Coastal Carolina University	$ 750
Spartanburg Community College	4,358
Greenville Technical College	9,000
Total	$ 14,108

The College received goods and/or services from other South Carolina higher education institutions for a fee during the fiscal year ending June 30, 2021, as listed below:

Institution	Amount
Clemson University	$ 500
Coastal Carolina University	1,835,313
Trident Technical College	350
Total	$1,836,163

NOTE 17 - STATE APPROPRIATIONS

State funds for operations for the South Carolina Technical College System are appropriated to the State Board for Technical and Comprehensive Education (the Board), and the Board allocates funds budgeted for the technical colleges in a uniform and equitable manner.

The following is a detailed schedule of State appropriations revenue reported in the financial statements for the fiscal years ending June 30, 2021 and June 30, 2020:

NON-CAPITAL APPROPRIATIONS	2021	2020
Appropriations per Annual Appropriations Act	$ 11,769,521	$ 11,293,944

NOTE 19 – TAX ABATEMENTS

The College does not negotiate or enter into an agreement for tax abatements. The College is subject to any tax abatement agreements entered by Horry County. Horry County provides tax abatement incentives through three programs to encourage economic development, attract new businesses, and retain existing businesses – Fee in Lieu of Tax, Multi-County Business Parks, and Special Source Revenue Credits:

- A Fee in Lieu of Tax (FILOT) is authorized under South Carolina Code Title 12, Chapter 44, Title 4, Chapter 29, or Title 4, Chapter 12. The FILOT is used to encourage investment and provides a reduction of property tax when a business invests a minimum of $2,500,000 within a 5-6 year investment period (beginning with date property is placed in service, ending five years after the last day of the property tax year in which the property is initially placed in service). The reduction in property taxes is accomplished by a reduction of assessed value, reduction in millage rate and elimination of (or reduction in) number of times millage rates are changed. In addition, an agreement may allow the possible use of net present value method over term of FILOT to equalize payments. Repayment of incentive is required by state law if taxpayer fails to meet statutory minimum investment requirement. Other recapture provisions may be negotiated (such as a pro rata clawback for failure to meet and/or maintain jobs/investment).

- A Multi-County Business Park (MCBP) is authorized under Article VIII, Section 13(d) of the Constitution of South Carolina, as amended and South Carolina Title 4, Chapter 1. A MCBP is used to promote the economic welfare of their citizens by inducing businesses to invest in the Counties through the offer of benefits available under South Carolina law pursuant to multi-county business park arrangements. The designation as a MCBP provides that all real and personal property located in the Park shall be exempt from all ad valorem taxation. This is typically used in the creation of a FILOT or SSRC, but also has the additional benefit of exemption of property from the rollback taxes when the property was previously taxed as agricultural property. When agricultural real property is applied to a use other than agricultural, it is subject to additional taxes, referred to as rollback taxes. The amount of the rollback taxes is equal to the sum of the differences, if any, between the taxes paid or payable on the basis of the fair market value for agricultural purposes and the taxes that would have been paid or payable if the real property had been valued, assessed, and taxed as other real property in the taxing district (except the value of standing timber is excluded), for the current tax year (the year of change in use) and each of the immediately preceding five tax years.

- A Special Source Revenue Credit (SSRC) is authorized under South Carolina Code Sections 4-29-68, 4- 1-170, and 12-44-70. The SSRC is used to encourage investment and provides a credit against property taxes in the form of a percentage reduction or a dollar amount reduction. County manually applies SSRC to reduce applicable property tax bill. To receive the credit, a business must incur costs of designing, acquiring, constructing, improving, or expanding improved or unimproved real estate or personal property used in the operation of a manufacturing or commercial enterprise, infrastructure servicing the project, or certain aircraft.

For the fiscal year ended June 30, 2021, the County abated College property tax revenues of $4,442 under agreements entered into by the County. The table below summarizes the tax abatements by program:

Tax Abatement Program	Horry County Abatement
Fee In Lieu of Tax (FILOT)	$ 3,879
Multi-County Business Park (Rollback Taxes)	0
Special Source Revenue Credit (SSRC)	563
Total	$ 4,442

NOTE 19 – TAX ABATEMENTS (continued)

The College has chosen to disclose information about some of its tax abatement agreements individually. It established a quantitative threshold of 10 percent of the total dollar amount of taxes abated during the year.

- A FILOT agreement with a medical facility located in the unincorporated area of Horry County. This agreement was completed in 2018. The abatement amounted to $1,733.
- A FILOT agreement with a manufacturer for relocation of their existing facility located in unincorporated area of Horry County. The agreement was completed in 2013. The abatement amounted to $980.
- A FILOT agreement with a manufacturer for expansion of their existing facility located in the Atlantic Center Industrial Park. This agreement was completed in 2009. The abatement amounted to $571.
- A FILOT agreement with a forest product manufacturer for expansion of their existing facility located in unincorporated area of Horry County. This agreement was completed in 2003. The abatement amounted to $439.

The School has not made any commitments as part of the agreements other than to reduce property taxes.

NOTE 20 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

GASB has issued GASB Statement No. 87 *Leases* in June 2017. This standard requires all leases to be reported as capital leases and eliminates the classification of an operating lease unless the lease is a short term, defined as 12 months or less. Under the single approach to accounting for and reporting leases, a lessee will recognize a lease liability and corresponding intangible asset representing the lessee's controlling "right to use" the asset. This standard is applicable for periods beginning after January 1, 2021. The College has not determined the effect this implementation will have on its financial statements.

GASB has issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. This statement requires that interest costs be recognized as an expense as incurred. As a result, interest cost incurred during construction will not be included in the historical cost of a capital asset. The requirements of this statement are effective for reporting periods beginning after December 15, 2020 and will be implemented prospectively.

NOTE 21 – PANDEMIC UNCERTAINTY

On March 10, 2020, the World Health Organization declared the 2019 Novel Coronavirus (Covid-19) outbreak to be a pandemic. Actions were taken around the world to help mitigate the spread including restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The Coronavirus has adversely affected and may continue to adversely affect economic activity globally, nationally, and locally. While it is unknown how long these conditions will last and what the complete financial effect will be to the College, the College could experience declines in revenues due to reduced revenue and adverse effects on the College.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Horry – Georgetown Commission for Technical Education
Horry – Georgetown Technical College
Conway, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Horry – Georgetown Technical College, as of and for the year ended June 30, 2021 and the related notes to the financial statements which collectively comprise Horry – Georgetown Technical Colleges' basic financial statements and have issued our report thereon dated September 24, 2021. Our report includes a reference to other auditors who audited the financial statements of the Horry – Georgetown Technical College Foundation, Inc., as described in our report on Horry – Georgetown Technical College's financial statements. The financial statements of Horry – Georgetown Technical College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*, and accordingly, this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with Horry – Georgetown Technical College Foundation. As described in Note 1 and Note 22 to the financial statements, the College adopted new accounting guidance, GASB Statement No. 84, *Fiduciary Activities*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Horry – Georgetown Technical College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Horry – Georgetown Technical College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses, or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weakness may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Horry – Georgetown Commission for Technical Education
Horry – Georgetown Technical College
Conway, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Horry – Georgetown Technical College's compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of Horry – Georgetown Technical College's major federal programs for the year ended June 30, 2021. The College's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Horry – Georgetown Technical College's major programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.*S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Horry - Georgetown Technical College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Horry – Georgetown Technical College's compliance.

Opinion on Each Major Federal Program

In our opinion, Horry – Georgetown Technical College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of Horry – Georgetown Technical College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency or combination of deficiencies, such that there are is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purposed of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
